J. A. LUTHER, Superintendent.

RAW MATERIAL USED ANNually, 850 BALES OF COTTON.
PRODUCTS, 3,000 YARDS OF 4-4 SHEETING, DAILY.
NUMBER OF HANDS OPERATED, SEVENTY.
CEDAR FALLS MANUFACTURING COMPANY.
Was born June 28, 1811, in Guilford County, near Centre Church. Graduated at the Louisville (Ky.) College of Medicine. In 1834 he was married to Miss Sarah Dicks, daughter of Peter Dicks, and settled at New Salem, in Randolph County, where he practiced medicine. He was afterwards a citizen of Montgomery County, and was engaged in the practice of medicine, also mining and merchandising.

From 1852 to 1856 Dr. Worth was Senator from Montgomery County. About 1856 he settled in Asheboro as a merchant and a man of general enterprise. From 1870 to 1875 he was Senator from Randolph County. From November 22, 1876, to January 21, 1885, he was State Treasurer. In 1877 and 1878 we find him representing Randolph in the House. Dr. Worth did more, perhaps, than any other one man to get the State debt consolidated, thus forever securing his fame as a financier.

He is a man about eighty-three years old, and is still full of energy, enterprise and public spirit.
THE RANDLEMAN MANUFACTURING COMPANY, INCLUDING THE QUINN MILL.

CAPITAL STOCK, $100,000.  SURPLUS, $92,000.

RAW MATERIAL USED, 3,000 BALES OF COTTON ANNUALLY.

ANNUAL PRODUCT, 4,000,000 YARDS OF PLAIDS.

TWO HUNDRED AND FIFTY HANDS EMPLOYED.

SHIPPING POINT, EXPRESS AND TELEGRAPH OFFICES, RANDLEMAN, N. C.
Randolph County Business Directory.

1894

IN THREE PARTS:

1. ALPHABETICAL.
   Names, Post-offices, and Line of Business.

   Names, Number of Acres, Valuation of the Entire County.

ALSO,

A SUPPLEMENT
CONTAINING MUCH INFORMATION ABOUT THE ENTIRE STATE.

PRICE, $3.00.

RALEIGH, N. C.:
Compiled and Published by Levi Branson.
1894.

Copyrighted, 1894, by Levi Branson.
EDITORIAL NOTES.

It has been a real "labor of love" for me to compile this Business Directory of my native county—the home of my childhood and youth; hence many little historical sketches appear in the book. "Reminiscences of Randolph County," by my life-long friend, J. Addison Blair, aided me very greatly. Mr. Blair calls up—then beautifies and sweetens the old-time memories.

The county has not only held her own, but has gone forward handsomely during the thirty-eight years of my absence. Randolph now feels the quickening pulse of 76.45 miles of railroads, as follows:

North Carolina Railroad ...................... .70 mile.
Cape Fear and Yakin Valley Railroad ...... 30.10 miles.
High Point, Randleman, Asheboro and Southern Railroad ......................... 26.65 "
Factory Branch (C. F. & Y. V.) Railroad.... 19.00 "

Total ........................................ 76.45 "

The county has 720 square miles of territory. She now has fourteen cotton factories, and these not only beautify and enrich, but they render musical the very air of the county.

This is undoubtedly one of the most beautiful sections of the State, and a grand future is in store for the land of our birth if we still remain true to her destiny.

Randolph has furnished the State two State Treasurers and one Governor.

I here return my warmest thanks to many prominent citizens who have aided me in compiling this book. At some future time I hope to publish a revised edition that shall be larger and better in every way.

LEVI BRANSON.

RALEIGH, N. C., June 23, 1894.
CONTENTS.

PART I. THE POSTOFFICES, PAGE.
In alphabetic order, giving the business at each place 24-64

PART II. CLASSIFIED DIRECTORY,

ASHEBORO (C. H.),

Seventy-two miles west of Raleigh, is the county seat of Randolph County, and was built on land purchased from Jesse Henly in 1793. Mr. Henly gave two acres of land for public buildings, and the first court was held here June 12, 1793, in a small wooden house. The present handsome brick structure was erected in 1835, under the supervision of Jonathan Worth, afterwards Governor of North Carolina. In July, 1889, the High Point, Randleman, Asheboro and Southern Railroad was completed to this place, since which time the population has increased rapidly, and is now estimated at 1,500. Asheboro was named in compliment to Samuel Ashe, a distinguished soldier and statesman of the American Revolution, and who became Governor of the State in 1795. The courts of the county were first held at Abram Reece's house (1779), about half way between Brown's Cross Roads (old Johnsonville Court House) and Randleman Factory. Courts were held afterwards (1786) at Johnsonville, until June 12, 1793, when the first court was held at Asheboro.

ASHEBORO,

Asheboro Township. Mrs. E. B. McCain, Postmistress. Population, 1,500. The town is incorporated and has officers elected in May, as follows: E. B. Kearns, Mayor; Aldermen, Col. A. C. REDDING T J, owns the Sawyer Gold Mine

CEDAR FALLS
Is in Franklinsville Township, five and a half miles northeast of Asheboro. Samuel Bristowe is the postmaster. The population is about 378. The first cotton mill established in Randolph County was built here in 1836 by Benjamin Elliott, Phillip Horney, Alfred H. Marsh and Henry B. Elliott. This is a historic place, surrounded by many hallowed associations of the olden time. In 1775 the lands on both sides of Deep river, including the spot where this village now stands, and then called Cedar Falls, were granted to Herman Husbands by the Earl of Granville. Benjamin Elliott subsequently acquired possession of the property and operated a grist and flouring mill there for a number of years before the factory was built. The factory is now owned and conducted by Dr. J. M. Worth, O. R. Cox, George H. Makepeace, Rev. W. M. Curtis and others, under whose skill Cedar Falls has become the queen of the river, and the cedar thicket is now a village of thrift and beauty. O. R. Cox, secretary and treasurer, is the manager.
Allred J F, minister Methodist Episcopal Church, South
Allred W E, smith and wagon shop.
Bristow Samuel, general merchant
Bristow Samuel, boarding-house

Yow A J & Son, flour and corn mill

FOUST'S MILLS,
In Pleasant Grove Township, is four miles northeast of Moffitt's Mills. It is estimated to have a population of 128. Edgar T. Whitehead is Postmaster.
Concord M E Church, South, R S Abernethy, pastor
Vestal R M, teacher

FRANKLINVILLE
Is in the Township of the same name. In 1801 Christian Morris bought the lands of Jacob Skeen and built a grist mill. In 1820 Morris conveyed the site to Elisha Coffin, who with Henry B. Elliott, Henry Kivett and John Miller, in 1838 built here a cotton factory, which was the second one established in the County. They named the town after Jesse Franklin, who was then Governor of the State. This town, like others on the river, is noted for the high moral and christian character of its people. The mill was burned in 1850, but was soon rebuilt. It is now owned by Benjamin Moffitt, Hugh Parks, Mrs. E. E. Moffitt and W. S. Russell.

Columbia Township, three miles east of Ramseur, is in the midst of a farming section. Ramseur is the nearest depot. Population, 39. W. H. Foust, postmaster.

Foust I H, teacher
Foust J H, teacher
Foust Maggie, teacher

POST OAK,

In Cedar Grove Township, is about eight miles west of Asheboro, in the midst of a good people. It is a new postoffice. Population, 23. Levi Lowe, postmaster.

Back Creek Friends Church
Bryant G W (col), teacher
Skeen Alice, teacher

PROGRESS,

In Trinity Township, is only a few miles from Trinity College and in a very beautiful part of the county. Population, 17. G. G. Hendricks, postmaster.

Blair Edward C, teacher
Hendricks G G, general merchant
Lowe Brothers, own gold mine now being operated
Oak Forest Friends Church
Trotter Jonathan, flour and corn mill
Trotter J M, flour, corn and saw mill
QUININE,
In Richland Township, is a new place a few miles south of Asheboro. Population estimated at 17. John Trogden, postmaster.

RACHEL,
In Union Township, is a new office. Population, 19. Mrs. Rachel Hill, postmistress.
Parks Strider & Son, general merchants
Thornburg W P, teacher
Union M E Church, South, William M Robbins, pastor

RALPH,
In Grant Township, south of Asheboro, is a small village of 16 inhabitants. J. M. Allen, postmaster.
Allen J M, teacher
Humble J A & Co, flour and corn mill

RAMSEUR.
In 1850 a factory was built at this place by Isaac H. Foust, Washington Brower, Henry Kivell, Dennis Curtis and Daniel Kime. They called it Columbia Factory. The town is situated on Deep river, a short distance below the mouth of Sandy creek; and since June 26, 1890, has been the terminus of the Factory Branch of the C. F. & Y. V. Railroad. In 1879 the property changed hands and is now owned and operated by W. H. Watkins, A. W. E. Capel, T. L. Chisholm and J. S. Spencer. The population is estimated at 900. The Columbia Manufacturing Company, with a capital stock of $90,000 and a surplus of $85,000, is the leading enterprise of the town. The Alberta Chair Works, $25,000 capital, is next in magnitude. The town has also two good churches, one good hotel, one high school, under management of Prof. F. S. Blair, several large stores, a handsome depot, also a splendid bridge across Deep river. Ramseur is withal a model town for industry, push, pluck, high morals and christian living. Hardly any place in the State would seem to have a brighter future. Not far below Ramseur, on Deep
river, was the birthplace of Braxton Craven, D. D., LL. D. He was brought up largely by Nathan Cox, a Quaker of undoubted honesty. Dr. Craven lived to be an honor to the entire County, to the State and to the Nation. Many good and really great men have lived along up and down Deep river within the bounds of Randolph County. Of the towns that have sprung up along the river, perhaps none have a more hopeful future in prospect than Ramseur. The owners of the factories are all faithful workers in the church and benefactors to humanity.

RAMSEUR,

Columbia Township, is the terminus of Factory Branch C. F. & Y. V. Railroad; is a beautiful town on the east bank of Deep river; has a population of 900. Edward Leonard is postmaster. The mill-dam here is probably the finest in the County—stone, cemented, and cost about $8,000.

Allred Peter, shoemaker
Allred John W, brickmaker and contractor
Blair Prof F S, principal of Ramseur High School
Branch M B, assistant teacher in Ramseur High School
Burgess John H, agent for machinery
Burgess John H, magistrate, term expires 1897

Watkins W H, sec and treas Columbia Mfg Co, pres Alberta Chair Works
Watkins Miss Etta F, ast teacher in Ramseur High School
Watkins W H, chm Board Trustees of Ramseur High School
York Jas D, bricklayer
RANDLEMAN

This is an incorporated town of 2,500 inhabitants, eight miles north of Asheboro. It is the largest manufacturing town in the county, and, in fact, has the largest population. Long ago Peter Dicks had a grist mill and an oil mill at this place, which was then called Dicks. In 1848 Jesse Walker, William Clark, Joseph Newlin, James Dicks and William Hinshaw erected a cotton mill here and called it Union Factory. In 1866 John Randleman and John H. Ferree acquired control of the property and the name was changed to Randleman. The Randleman Mills, including the Quinn Mill, are now owned and operated by John H. Ferree. Naomi Falls Factory (owned by a stock company), Powhatan Plaid Mills and the Randleman Hosiery Mill (making six cotton mills) are all within the corporation, and Worthville Factory is only two miles down the river. In 1885 the Randleman Mill was burnt, but it was immediately rebuilt, and is now one of the leading manufactories of the State. The town has four churches, two hotels, a graded school and many other signs of prosperity. The High Point, Randleman, Asheboro and Southern Railroad has a fine depot here, and reaches the town by a loop, giving a beautiful view as the train sweeps around the brow of the hill overlooking the place from the west. Within the town limits is Naomi Falls, named after Naomi Wise, who was drowned here by Jonathan Lewis about the year 1808. Naomi Falls Factory was also named for the ill-fated Naomi. It was built by J. E. Walker, John H. Ferree, J. O. Pickard and Amos Gregson in 1879. Dr. Braxton Craven, after an able discourse, dedicated this factory building to "Almighty God, for the purpose and uses of Christian work." This was a new departure and a good example, and it is remarkable that the factories of Randolph County are conducted almost entirely by Christian gentlemen of very high type.

RANDLEMAN.

Town Officers—D. J. Gaster, Mayor; T. O. Bowden, William Ivey, William F. Spain, Robert Hanner, J. H. Wilson, Commissioners; Clarence Gregson, Secretary and Treasurer; W. H. Winningham, Chief Marshal.

Old North State Mining Co, own the Uwharrie gold mine
Plunkett J K, physician
Walden H R, (col), teacher

TRINITY COLLEGE,

Trinity Township, is one of the three incorporated towns in the County. As far back as 1837 Dr. B. York established Union Institute at this place. In 1841 Dr. Braxton Craven took charge of the Institute, and in 1853 had it chartered into "Normal College." In 1858 it became the college of the North Carolina Methodist Conference. Since Trinity College was removed to Durham, some three years ago, Trinity High School has been conducted here, with Rev. J. F. Heitman as head master, accomplishing much good for the cause of education. The high moral influence of this school can be seen all over the county. County pride alone should secure ample endowment and keep it full of students on and on. The town has about 350 people, several stores and two factories of small wares. It is a depot on the H. P. R. A. & S. Railroad, five miles south of High Point. Miss Cornelia Z. Leach, postmistress.

Steam saw mill, Mr Elliott, of Thomasville
Underwood M F, magistrate, term expires 1893

WHITE HOUSE,
Cedar Grove Township, is seven and one-half miles southwest of Asheboro, and has an estimated population of 27. Near this place lived Col. Andrew Balfour, who was killed by David Fanning and other Tories on Sabbath morning, March 10, 1782, in the presence of his sister Tibbie and little daughter. Col. Balfour lived in a large log house, old colonial style. He was a true Scotch patriot, and died a martyr to the cause of American liberty. The old rock spring-house is still standing, and just across the public road, down the spring branch, was seen a broad and beautiful meadow. Levi T. Branson is postmaster at White House.

Bettie McGee gold mine, (not operated at present)
BUCKEYE GOLD MINING CO (Branson mine), John T Cramer, of Thomasville, gen mgr; telegraph and express offices, Asheboro. This property was lately bought of Eli Branson's heirs, and capitalized at $60,000

Potter shop, Evan Cole, proprietor
Parker G W, dry goods and groceries
Stowe J H, pastor of Asheboro circuit Meth Prot Church
Yow Henry, general merchant
Yow E R, magistrate, term expires 1899

WOODFORD,

In Grant Township, south of Asheboro, is a new postoffice. Population, 13. Mrs. S. J. Brown, postmistress.

WORTHVILLE,

Franklinsville Township, on Deep river, two miles below Randleman, is a factory village of some 350 people. Mr. Allred, postmaster. This place is at the old crossing called Hopper's Ford, from Charles Hopper, who entered this land
and located near the ford over one hundred years ago. The cotton factory here was built in 1881 by Dr. J. M. Worth and H. Worth. It is a magnificent building. The town is handsomely laid out on the west side of Deep river, just below the mouth of Pole Cat creek. This site had never been improved before, but Worthville is already an honor to the county of Randolph and a living monument to the public spirit and enterprise of the men whose name and memory it will long perpetuate.

Arnold J O, general merchant
Bethany Methodist Protestant Church
Coble W C, grocer
Cedar Falls M P Church, G F Melloway, pastor

LEVI BRANSON'S
AGRICULTURAL
ALMANAC

FOR THE YEAR OF OUR LORD
1894,
And, until the 4th of July, the 118th year of American Independence.

Carefully Calculated for the Latitude and Longitude of Raleigh by
LEVI BRANSON, A. M., D. D.

LEVI BRANSON, Publisher, Raleigh, N. C.

COPYRIGHT, 1894, BY LEVI BRANSON.

POSTMASTERS ARE AUTHORIZED AGENTS FOR THIS ALMANAC.
TIME.

The calculations of this Almanac are made in mean solar or clock time, which is indicated by a well regulated clock or watch, and does not correspond with the sun precisely, except on four days of the year.

Apparent time is that which makes the Sun come to the meridian at 12 o'clock.

No good clock will run with the Sun; if set with the Sun on the 2d of January, the clock will seem to be one minute too fast on the 3d of January.

To adopt the calculations of this Almanac to apparent time, use the minutes in the column marked "Sun slow" or "Sun fast;" add them when fast, subtract them when slow.

The calculations are made for the Latitude and Longitude of Raleigh, N. C., but the times, phases, &c., will vary only a few minutes for any part of North Carolina, South Carolina, Georgia, Tennessee or Virginia.

RISING AND SETTING OF THE SUN.

The Almanacs generally used have made the rising and setting of the Sun together equal twelve hours. This is incorrect. During some portions of the year the Sun changes so rapidly in Right Ascension and Declination that it makes a material change in the Diurnal Arc during the day. The times here given have been rigorously calculated and compared with the authority, and are true to the nearest whole minute.

TWELVE SIGNS OF THE ZODIAC.

The Head and Face sign. ♈ Aries the Ram Ar.

♊ Arms.
Gemini .... Gem. Twins.

♌ Heart.
Leo .... Lion.

♎ Reins.
Libra .... Lib. Balance.

♐ Thighs.
Sagittarius .... Sag. Bowman.

♑ Legs.
Aquarius .... Aq. Waterman.

The ♔ Pisces the Fishes Pisc.

To know where the sign is, find the day of the month, and against the day in the column marked Moon's Signs you have the sign or place of the Moon, and then find the sign; it will give you the part of the body it is supposed to govern.

MORNING STARS.

Mercury will be Morning Star April 10, August 8, and November 27.
Venus will be Morning Star from February 15 to November 30.
Jupiter will be Morning Star from January 4 to December 22.

EVENING STARS.

Mercury will be Evening Star about February 25, June 23 and October 19.
Venus will be Evening Star till Feb. 15, then Nov. 30 to Dec. 31.
Jupiter will be Evening Star till June 4—Dec. 22 to Dec. 31.

ECLIPSES.

In the year 1894 there will be four Eclipses—two of the Sun and two of the Moon, and a transit of Mercury over the sun's disk.

I. A partial Eclipse of the Moon March 21st, not visible in North Carolina.
II. An Annular Eclipse of the Sun April 6th, not visible in North Carolina.
III. A partial Eclipse of the Moon September 15th, visible more or less in North and South America. Moon enters shadow 3:35 A.M., leaves shadow 5:27 A.M.
IV. A total Eclipse of the Sun September 29th, not visible in North Carolina.

A Transit of Mercury over the Sun's disk November 10th, visible generally to North and South America. The Transit comes on at 10h. 56m. A.M., and goes off at 4h. 12m. P.M. It commences on the Eastern limb of the Sun.

TIDES.

The time of tide can readily be found for the following places by adding the hours and minutes opposite the names to the time when the Moon is South on the day to which the tide is sought. The time when the Moon is South is given in the Calendar for every day. The next tide can be found very nearly by adding 12 hours and 29 minutes to the time of the one previous.

The tides are given in local time—add 12 minutes for Eastern Standard.

HERSCHEL’S WEATHER PROGNOSTICATOR

For Foretelling the Weather through all the Lunations of the Year.

This table and the accompanying remarks are the result of many years actual observation, the whole being constructed on a due consideration of the attractions of the Sun and Moon, in their several positions respecting the Earth, and, by simple inspection, it shows the observer what kind of weather will most probably follow the entrance of the Moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

Observations.—1. The nearer the time for the Moon’s change, first quarter, full and last quarter are to midnight, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from 10 at night until 2 next morning.
3. The nearer to midday or noon the phase of the Moon happens, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from 10 in the forenoon until 2 in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon’s change, first quarter, full and last quarter, happening during six of the afternoon hours, i.e., from 4 to 10, may be followed by fair weather, but this is mostly dependent on the wind, as is noted in the table.
6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of Autumn, the whole of Winter and the beginning of Spring, yet, in the main, the above observations will apply to those periods also.
7. To prognosticate correctly, especially in those cases where the wind is concerned, the observer should be in sight of a good vane, where the four cardinal points of the heavens are correctly placed.
FARM AND GARDEN.

FARM AND GARDEN WORK FOR JANUARY.—Plant peas, beans, beets, onions, Irish potatoes, horse radish; sow turnips, spinach, lettuce, radish, parsley, carrots, salsify. Plant early peas; artichokes must now be dressed, also asparagus beds; this is the proper time to sow early spring tomatoes, etc.

Prepare land for the next crop, if not done. In the low country, if mud marsh or rushes are used, this is a good time to haul out and spread in the alleys, and throw upon it a slight listing. Repair fences, plow, ditch, drain and manure. You can sow oats for a first crop.

FARM AND GARDEN WORK FOR FEBRUARY.—Continue to sow peas, and such vegetables as were omitted in January. Plant pole beans, first crop (in the low country); full crop Irish potatoes, beets and carrots; dress artichokes and asparagus. Tomatoes, peppers and cucumbers sow in hot beds; put out mangoes.

This is considered the opening month of the planter's year. Continue preparing as in January. Sow oats for a full crop in the low country; plant Irish potatoes; make up sprout beds for sweet potatoes. Plant root crop of sweet potatoes.

FARM AND GARDEN WORK FOR MARCH.—Plant bush squash, pumpkins, water and muskmelons, okra, Guinea squash or egg-plant, sugar beets, carrots, beans, peas, radishes, lettuce, corn, celery (first crop), tanyah and mangoes in the low country and elsewhere as soon as danger from frost is over.

This is the first planting month for cotton, corn and rice. Plant your high lands first; leave the low lands for April. Plant rice about the 20th of the month.

FARM AND GARDEN WORK FOR APRIL.—Whatever has been omitted in March, do not neglect any longer. Sow green glazed cabbage, pickling cabbage, full crop of cauliflower and broccoli, okra, tomatoes, peppers, beets, carrots, leeks, melons, cucumbers, celery.

Full crops of corn, cotton and rice should be put in during this month. Plant your lowland corn. Commence early to hoe your young cotton, and thin out to stand. Plant pumpkins for a field crop.

FARM AND GARDEN WORK FOR MAY.—Plant snap beans and squashes. Sow cabbages for winter use, cauliflower, broccoli, celery, beets, carrots, salsify. Plant cucumbers, melons and pumpkins for late crop. Gather herbs for drying; always dry gently in the shade.

Look well to your hoeings and plowings. Continue to plant corn in low lands. Sow first crop of early cow peas. Rice planting is generally postponed until June, as the birds are very bad in May, and the May bird is exceedingly destructive.

FARM AND GARDEN WORK FOR JUNE.—Sow full crops of cabbages for fall and winter use. Cauliflower and broccoli may yet be sown, also a few carrots. Continue to sow tomatoes, okra, radishes, snap beans. Transplant leeks; pull and dry onions, garlic and eschalots. A few cucumbers and melons plant for a late crop, and a few ruta baga turnips.

Keep constantly at the plow and hoe; this is the most important grass month! If the vines from your sweet potato sprout-bed are fit you can draw and plant out first good rain. Sow cow peas between your corn hills and rows. The end of this month is a good time to put in the first crop of standing field peas.

FARM AND GARDEN WORK FOR JULY.—Sow cabbages, but protect from hot sun when young. Water at night. Plant snap beans and a few Irish potatoes. Continue to sow radishes, lettuce, endive, cresses, mustard and small salading. The early Dutch turnip is the best to sow for the first crop; follow with the yellow Swedish or ruta-baga.

Now do not omit to sow full crops of standing cow peas. Sow a few turnips, carrots and beets as field crops, though the hot suns are apt to destroy them; should they escape they will be fine; the next month is the best for these crops.

(See top 3d page cover.) S. W. TRAVERS & CO., Richmond, Va.
FARM AND GARDEN.—Continued.

FARM AND GARDEN WORK FOR AUGUST.—Transplant all kinds of cabbage, cauliflower and celery. Sow carrots and beets, turnips of all kinds, spinach, lettuce, radishes and onions.

Now sow full crops of field turnips, carrots and beets, and such other crops as were omitted last month; strip fodder. Early rice will be fit to cut the last of this month. Look to it. This is a good time to plant vines of the first slips, in order to procure seed potatoes for the next year's crops.

FARM AND GARDEN WORK FOR SEPTEMBER.—Now sow full crops of all kinds—turnips, onions, carrots, beets, cabbages, lettuce, cresses. Look after your mushroom beds. Hoe and thin your turnips.

Continue to sow field turnips, carrots and beets. Southern seed is always better than the imported; those from the latter are apt to run to seed early in the spring, unless it be English seed. Prepare land for sowing rye in October. Pick cotton; harvest corn.

FARM AND GARDEN WORK FOR OCTOBER.—You may make two sowings of cabbage this month, and, if of English seed, they will not "run" in the spring. Sow lettuce; hoe turnips and thin; put out leeks and onions; sow principal crop of spinach, earth up celery.

Continue picking your cotton as it blows. Sow early rye, wheat and barley. Dig your sweet potatoes when the weather becomes cool and you expect frost.

FARM AND GARDEN WORK FOR NOVEMBER.—Sow your first crop of peas and a few turnips. Plant out onions raised from seed in August and September. Plant Windsor and long-pod beans. Dress asparagus and artichokes.

Sow full crops of rye, barley, wheat and other small grain. Harvest your sweet potatoes.

FARM AND GARDEN WORK FOR DECEMBER.—Plant peas of all kinds; set out onions, garlic, eschalots and cabbage. Sow a few lettuce, spinach, carrots and radishes. You may try a few Irish potatoes.

Finish picking cotton; get out crops of rice, and prepare for market. Commence plowing, ditching, draining and manuring as early as possible for next year's crop.

ANECDOTE OF DR. CLOSS.

When quite a young man he was sent by Conference to preach to the plain, illiterate fishermen on our coast south of Cape Hatteras. At one of his earliest appointments he was accosted by a rude, rough sailor, who requested that he would preach his father's funeral.

"Is your father dead?" asked Mr. Closs.

"Oh, yes, he's been dead more'n a year, but nobody hain't preached his funeral."

"Well," said Mr. Closs, "I'll give notice to-day that at my next appointment one month hence I'll preach Billy Wilkins' funeral."

Notice was accordingly given, and at the next "meeting" a large crowd greeted the young preacher. He ascended the pulpit, a sort of story-and-a-half affair, securely boxed in to prevent the escape of any preacher who might enter it ere the benediction was pronounced, and after giving out his hymn and praying, and just as he was about to announce his text, he felt a nervous jerking at his coat tail. Somewhat surprised at the unusual occurrence, he looked around and down at the figure of a man who was thus attracting his attention, and beheld Jim Wilkins, the son of the deceased, in a stooping position behind the pulpit, with one hand on the skirts of the preacher's coat and the other wound away around towards his hip-pocket, and as Mr. Closs stooped to catch the message, Jim, in a hoarse whisper, said:

"Parson, you know this is dad's funeral, and I want you to do your level best." And producing a "tickler" of what might have been whisky, said, "wont you take a drap to help you on in the good work?"

It is said on the authority of Mr. Closs that he declined and proceeded with the funeral discourse.

### BRANSON MAXIMS.

1. All men have faith in something, hence they work expecting results.—**Branson**.
2. Some men have faith in the laws governing mind; obeying those laws they attain to mental power.—**Branson**.
3. Some men have faith in the laws of health, and hence by obeying those laws they secure physical health and happiness.—**Branson**.
4. The man who has faith in the laws governing the spirit life, can realize that “the law of the Lord is perfect, converting the soul.”—**Branson**.
5. The Christian religion leads a man towards the highest cultivation of all his best capabilities.—**Branson**.
6. The man who has **full faith** in all God's laws, and renders a perfect obedience, has peace flowing as a river, and a joy that is complete.—**Branson**.
7. To give advice unsolicited is so delightful; it magnifies our self-esteem. To receive advice unsolicited is humiliating; it minifies our self-esteem.—**Branson**.
8. A man in whose mind his own country is not first, is a man who himself is not worthy to be first in another country.—**Branson**.
9. Our State is a diamond; let us polish it well.—**Branson**.
10. The **mind crop** is the greatest crop that can be raised on any farm or in any State.—**Branson**.
11. The **mind crop** in North Carolina is better than ever before.—**Branson**.
12. The **mind crop** should be planted early and cultivated better than cotton or tobacco.—**Branson**.
13. The stronger the **homes**, the stronger the **country** in which the homes are found.—**Branson**.
14. The greatest possibilities of a man are on his native heath; if he is great on another heath, he is still less than a native ought to have been.—**Branson**.
15. It is strange how freely we give away our own knowledge, and how freely we pay high prices for the knowledge we obtain from others.—**Branson**.
16. Living in obedience to spiritual laws brings spiritual blessings.—**Branson**.
17. Do your duty, then **wait**.—**Branson**.
18. Work for your country, and God will work for you.—**Branson**.
19. Much of our best work is unsuspected by ourselves, and even by the recipients.—**Branson**.
20. Individual comfort, State wealth, make a happy people.—**Branson**.
21. Never keep people unnecessarily waiting.—**Mrs Branson**.
22. Be happy; life is short.—**Branson**.
23. To sleep sweetly, recline a few moments on your left side; then turn slowly onto your right side. Try it.—**Branson**.
24. Live with happy people, and you are likely to be happy.—**Branson**.
25. Do not keep a **burr** in your throat, nor a bit of **malice** in your heart.—**Branson**.
26. If you are good this world is good enough for you; if you are mean, then it is too good for you.—**Branson**.

"Jesus, lover of my soul,"
Rose the words, sweet and clear,
From the lips of a little child,
Drifting fast to the other world.

"Let me to thy bosom fly,"
She repeated, o'er and o'er,
While her sweet brown eyes beheld
Visions on the other shore.

"While the nearer waters roll,"
And her voice was fainter still,
But her echo rang more clear
Far beyond the heavenly hills.

"While the tempest still is high,"
When the angels took her home,
And Jesus bade her sing the rest
As she stood before the throne.

"Hide me, O my Saviour, hide,"
Thus we sang while bending low
O'er the empty casket left
For its precious gem had flown.

"Till the storm of life is past,"
Came these words from trembling lips
As the sweet, white lids were closed
Over eyes with love once lit.

"Safe into the haven guide,"
We sang the hymn soft and low,
While we laid our darling's form
Far beneath the drifting snow.

"O receive my soul at last,"
Swelled this plea from aching hearts
As we turned in blinding tears
From that low and sacred spot.

But the Saviour heard our cry
Ere we reached our darkened home,
And he gave us strength to say,
"Thy will, O Lord, not mine be done."

And as we sat that night alone,
And thought of her safe in the fold,
We sang her hymn with happy hearts,
"Jesus, lover of my soul."

October 5, 1893.

L. H.

"I HAVE LIVED," says the indefatigable Dr. Clarke, "to know that the great secret of human happiness is this—never to suffer your energies to stagnate. The old adage of 'too many irons in the fire' conveys an abominable falsehood; you cannot have too many. Poker, tongs, and all—keep them all going."

Weather Conjectures.—April.—1, 2, 3, 4, look for snow-storm; 5, 6, 7, 8, 9, 10, 11, fair and frosty; 12, 13, 14, 15, 16, 17, 18, frost if wind N. or N. E.; rain or snow if S. or S. W.; 19, 20, 21, 22, 23, 24, 25, 26, frost if wind N. or N. E.; rain or snow if S. or S. W.; 27, 28, 29, 30, fair and frosty.

ANECDOTE OF DR. CLOSS.

At another time he was on the Granville Circuit, and near one of his churches resided a sister Jones. Her house was the home of all Methodist ministers, and though she was not wealthy they were ever welcome. She had a room adjoining the sitting-room which was known as the “preacher’s room,” and as it was secluded from the rest of the house, and the good sister was lacking in pantry accommodation, she stowed under the bed therein her goodly store of pickles and preserves. She had a mischievous boy of thirteen years who had a sweet tooth and who sometimes made raids on his mother’s sweetmeats. She accordingly kept an eye on John and on her hoarded treasures for company occasions.

It so happened that Bro. Closs stopped at the close of a summer day at sister Jones’ house. It was about dusk, and so he left his horse to be taken to the stable, and went in without knocking. Whoever heard of anyone knocking at a country house in those days? He entered the sitting-room and went at once to the preacher’s room, and, North Carolina like, left the door open behind him.

He removed his coat and bathed, and then bethought to spend a few moments in prayer. He knelt most reverently by the bedside and poured out his soul in thanksgiving and prayer, when just then sister Jones entered the sitting-room and seeing the door to the “preacher’s room” ajar, she naturally suspected her son John guilty of his usual misdemeanor, and tipping in with cat-like tread, she saw in the dim and uncertain light of the room the form of Bro. Closs by the bedside, and so raising aloft her strong right hand she let fall the palm thereof on the bald head of her pastor, exclaiming in a high key:

“'Oh, you rascal, I’ve caught you again—stealing my preserves.’

Bro. Closs arose from his devotions—solemnly assured her that he was not “John,” and that he was not even thinking of stealing her preserves, and was forgiven.

Bless the memory of that blessed man, and when we have done with earth and earthly things may we meet him in the home of the blessed.

Yours,

JOHN B. NEATHERY.

BEAUTIFUL LIVES.

Beautiful lips are those whose words
Leap from the heart like songs of birds,
Yet whose utterances prudence girds.

Beautiful hands are those that do
Work that is earnest and brave and true,
Moment by moment the long day through.

Beautiful feet are those that go
On kindly ministries to and fro,
Down lowliest ways if God wills it so.

Beautiful shoulders are those that bear
Ceaseless burdens of homely care,
With patient grace and daily prayer.

Beautiful lives are those that bless,
Silent rivers of happiness,
Whose hidden fountains but few may guess.

I AM NOW an old man. I have seen nearly a century. Do you want to know how to grow old slowly and happily? Always eat slowly; masticate well. Go to your food, to your rest, to your occupations, smiling. Keep a good nature, and a soft temper everywhere. Never give way to anger. A violent tempest of passion tears down the constitution more than a typhus fever.—Waldo, in “Looking Toward Sunset.”

Serge, Cheviot and Drap’d’te Suits for Men. WHITING BROS., Raleigh, N. C.

(See top 3d cover page.)  S. W. TRAVERS & CO., Richmond, Va.
THE LAW OF CHASTITY.

We are not surprised to learn that Hon. W. C. P. Breckinridge will have opposition when he again offers for Congress. Mr. Breckinridge has been sued for breach of promise, and we do not pretend to say that Miss Pollard has a case against him. We do not know and we do not intimate that he made the young woman a promise of marriage. But the public believes that Mr. Breckinridge has sinned against the social law—the law of chastity—and he must clear his skirts of this charge before he can hope to regain the confidence of the people.

There was a time when the public winked at immorality of this kind among men, and there are those who still do so. But the time has now come when the better class of the American people demand that public men shall be clean in their inner life, and they will not tolerate in office men who are impure and unchaste.

There is but one code of morals and it applies with equal force to both sexes. Chastity in man or woman is the immediate jewel of the soul and it is as binding upon one as upon the other. We long to see the day, and we believe that we shall see it, when society will as surely frown upon the unchaste man as it now frowns upon the unchaste woman, when no guilty man may obtrude his offensive presence into the society of pure women.—Richmond State.

SUICIDE NOT HEROIC.

Suicide, as an escape from the earthly consequences of one's own misdeeds, is much affected nowadays, and it must be confessed that if escape is all that is desired no surer expedient could be adopted. But if one cares for character or name, it is the least worthy of all expedients.

When a man loses his fortune which he has hard earned, necessity compels him to go to work to earn another, or at least he tries to keep himself out of the poor-house. But when he loses his character, which is worth more than fortune, he has a more imperative motive for re-earning what he foolishly parted from. True it is easier to build up a shattered fortune than regain a good name, but the greater prize is worth the greater effort.

Besides, to quit life at such a time is to repudiate every obligation imposed by natural affection to parents, wife and children, who have the right to demand that no taint be put upon them. The individual himself may escape by suicide. But the children he has brought into the world cannot. He simply handicaps them in the struggle for existence and slips away, leaving them a heritage of shame. To live down wrong-doing and right one's self after having wandered so far out of the one true way is hard to do, but the manly man will not hesitate to live and undertake the task.—St. Louis Post-Dispatch.

A DRUNKARD'S WILL.

I leave to society a ruined character, a wretched example, and a memory that will soon rot.

I leave to my parents the rest of their lives, as much sorrow as humanity, in a feeble and decrepid state, can sustain.

I leave my brothers and sisters as much mortification and injury as I well could bring upon them.

I leave to my wife a broken heart, a life of wretchedness and shame, to weep over my premature death.

I give and bequeath to each of my children poverty, ignorance, low character and a remembrance that their father was a monster.

DRESSING PRETTY NECKS.

It is frequently noticeable that the slender woman covers her neck with illusion when wearing a low-cut dress, but even a beautiful neck is often more lovely if fitted over with a seamless yoke of transparent or semi-transparent material. A tiny edge of ruffle may finish the yoke at the neck, or it may be drawn full with a dainty, narrow ribbon, or, again, it may simply disappear under a necklace.—St. Louis Star Sayings.

R. L. Burkhead, of Wayne County, Clerk for Charitable and Penal Institutions; salary $800.

C. M. Roberts, of Vance County, Superintendent of Public Buildings and Grounds; salary $850.

STATE BOARD OF EDUCATION.

The Governor, Lieutenant Governor, Secretary of State, Treasurer, Auditor, Superintendent of Public Instruction and Attorney General constitute the Board.

UNIVERSITY OF NORTH CAROLINA.

(Chartered 1789, Founded 1793, Opened 1795.)

Located in Chapel Hill, 28 miles N. W. from Raleigh. Is non-political and non-sectarian. Gives free tuition to sons of all ministers, to candidates for the ministry, to public school teachers and to young men under bodily infirmity. Loans and scholarships for needy young men of talent and character. Offers four general courses of study with wide range of electives, six brief courses, a normal course for teachers, also special courses in law, medicine and engineering, and an unlimited number of optional courses. There were 400 students in 1893-'94.

FACULTY.—George Tayloe Winston, A. M., LL.D., President; Kemp Plummer Battle, A. M., LL.D., Professor of History; Francis Preston Venable, Ph. D., F. C. S., Professor of Chemistry; Jos. Austin Holmes, B. S., F. G. S. A., State Geologist; Collier Cobb, A. M., Professor of Geology and Mineralogy; Joshua Walker Gore, C. E., Professor of Natural Philosophy; John Manning, LL.D., Professor of Law; Thomas Hume, D.D., LL.D., Professor of the English Language and Literature; Walter D. Toy, M. A., Professor of Modern Languages; Eben Alexander, A. M., Ph., Professor of the Greek Language and Literature (on leave of absence as Minister to Greece); William Cain, C. E., Professor of Mathematics and Engineering; Richard H. Whitehead, M. D., Professor of Anatomy, Materia Medica and Physiology; Henry Horace Williams, A. M., B. D., Professor of Mental and Moral Science; Henry V. Wilson, A. M., Ph. D., Professor of Biology; Karl P Harrington, A. M., Professor of the Latin Language and Literature; Howard Burton Shaw, A. PUBLIC WORKS AND INSTITUTIONS IN NORTH CAROLINA.

THE N. C. INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

The North Carolina Institution for the Deaf and Dumb and the Blind is located at Raleigh, and comprises two separate departments—one for the whites, in the northwestern part of the city, the other for the colored in the south-eastern part of the city.

OFFICERS.—W. J. Young, Principal; John G. B. Grimes, Steward; Samuel McD. Tate, ex officio Treasurer.

BOARD OF TRUSTEES.—R. S. Tucker, President; B. F. Park, C. D. Heartt, John R. Williams, Dr. H. C. Herring, James A. Briggs, B. F. Montague.

The Institution has a full corps of teachers in the deaf-mute and blind departments at both buildings. The buildings can accommodate about 250 pupils. The course of instruction includes eight years. Applications for admittance of pupils should be made to the Principal.

NORTH CAROLINA INSANE ASYLUM.

Situated in the vicinity of Raleigh, and will accommodate 300 patients.

RESIDENT OFFICERS.—Dr. Wm. R. Wood, Superintendent; Dr. Francis T. Fuller, First Assistant Physician; Dr. William H. Cobb, Jr., Second Assistant Physician; William R. Crawford, Jr., Steward; Mrs. M. E. Whitaker, Matron.

BOARD OF DIRECTORS.—John B. Broadfoot, Cumberland County, President of Board; R. R. Cotton, Halifax County; Dr. Geo. A. Foote, Warren County; Capt. J. B. Burwell, Wake County; Capt. J. D. Biggs, Martin County; Dr. Geo. L. Kirby, Wayne County; Maj. J. B. Broadfoot, Cumberland County; Dr. R. H. Speight, Harnett County; B. F. Boykin, Esq., Sampson County.

EXECUTIVE COMMITTEE.—Capt. J. B. Burwell, Dr. Geo. A. Foote, Capt. B. F. Boykin.

OFFICERS.—Hon. Samuel McD. Tate, Treasurer ex officio; W. T. Smith, Esq., Keeper of Records.

STATE HOSPITAL, MORGANTON.

OFFICERS.—P. L. Murphy, M. D., Superintendent; Isaac M. Taylor and C. E. Ross, Assistant Physicians; F. M. Scroggs, Steward; Mrs. C. A. Marsh, Matron.

DIRECTORS.—James P. Sawyer, Buncombe County, President; I. I. Davis, Burke County; J. P. Caldwell, Iredell County; J. G. Hall, Catawba County; Dr. H. T. Bahnsen, Forsyth County; Dr. G. H. P. Cole, Henderson County; E. R. Hampton, Jackson County; J. C. Mills, Burke County; G. W. F. Harper, Caldwell County.

EASTERN N. C. INSANE ASYLUM.

OFFICERS.—Dr. J. F. Miller, Superintendent; Dr. W. W. Faison, Assistant Physician; Capt. Daniel Reid Steward; Mrs. B. V. Smith, Matron; John W. Wilson, Engineer; John Pate, Farmer; Mrs. Victoria Bryan, Seamstress.

EXECUTIVE COMMITTEE.—Dr. J. W. Vick, Johnston County, Chairman; L. H. Costex and John F. Southerland, Wayne County.

BOARD OF DIRECTORS.—Dr. J. W. Vick, Johnston County; Dr. N. M. Culbreth, Columbus County; J. L. McLean, Robeson County; W. F. Roundtree, Craven County; H. E. Dillon, Lenoir County; L. H. Costex, Wayne County; Jno. F. Southerland, Wayne County; Dr. M. B. Pitt, Edgecombe County; Theophilus Edwards, Greene County.

BUREAU OF LABOR STATISTICS.

B. R. Lacy of Wake County, Commissioner, salary $1,500; Logan D. Terrell, Wake County, Clerk, salary $900. Office in the Supreme Court Building.

STATE NORMAL AND INDUSTRIAL SCHOOL AT GREENSBORO, N. C.

This school was chartered by the General Assembly of 1891. The first session was opened in the fall of 1892. The following constitute the officers and Faculty for 1893-'94:

Board of Directors.—J. C. Scarborough, President, Wake County; E. McK. Goodwin, Secretary, Wake County; B. F. Aycock, Wayne County; Hugh Chatham, Surry County; R. D. Gilmer, Haywood County; A. C. McAlister, Randolph County; M. C. S. Noble, New Hanover County; W. P. Shaw, Hertford County; J. M. Spanhour, Caldwell County; R. H. Stancel, Northampton County.

Faculty.—Chas. D. McIver, A. B., Litt. D., President, Pedagogics and Civics; Mrs. S. M. Kirkland, Lady Principal; P. P. Claxton, A. B., Pedagogics and German; J. Y. Joyner, Ph. D., English Literature and Methods of Teaching Arithmetic; Gertrude W. Mendenhall, B. S., Mathematics; Dixie Lee Bryant, B. S., Geology, Biology and Physical Geography; Mary M. Petty, B. S., Chemistry and Physics; Viola Boddie, L. I., Latin and French; Annie M. Graves, M. D., Physiology and Hygiene; Maud F. Broadaway, Physical Culture; Lucy H. Robinson, History and Reading; Vocal Culture; Melville Vincent Fort, Industrial Art; Edith A. McIntyre, Domestic Science; Sue May Kirkland, Habits and Manners; E. J. Forney, Bursar, Business Department; Fannie Cox Bell, Director of Observation and Practice School; Mrs. W. P. Conway, Matron.

There was an attendance of 223 girls the first year, representing 70 counties,

Clerks U. S. Circuit and District Courts.

W. C. Brooks, Elizabeth City; George Green, Newbern; W. II. Shaw, Wilmington; James E. Reid, Asheville; H. C. Cowles, Statesville and Charlotte; Samuel L. Trogdon, Greensboro; N. J. Riddick, Raleigh.

ABOUT DR. WM. CLOSS.

The mere mention of the name of Dr. William Closs will awaken a train of happy thoughts in the minds of thousands of people in North Carolina. He was one of those grand old pioneers and patriarchs of Methodism in the State, whose memory should be cherished for aye. His zeal for his church, his love for his fellow-man, and his earnest and constant desire to see all brought under the influence and saving power of the Christian religion knew no bounds. With a heart full of faith, with an industry that never tired, with a diligence that never swerved, and with a judgment that seldom erred, he was a man to be admired—yea, venerated. Possessed of commanding stature, quick, penetrating eye, with a massive forehead, an earnestness that attracted every listener, and with a magic voice that fascinated and charmed, he towered above his associates and left the impress of his intellect and peerless preaching of pure gospel on thousands of grateful, regenerated hearts.—Communicated.

S. W. TRAVERS & CO., Richmond, Va.
THE STORY OF JIM JONES.

Jim Jones, he was a candidate for office—so he was;
He'd been workin' clean from daylight in the Democrat's cause;
He'd heard about the salary an office-holder draws—
So he went in for an office in the mornin'!

He brushed his old black beaver an' he polished up his boots;
He got him twenty packages of Georgia-made cheroots,
An' they missed him from the village an' political disputes—
For he went in for an office in the mornin'!

But the office wasn't comin', an' they told him for to wait;
The road was kinder crooked when he thought it kinder straight,
But Jones—he kept a'swingin' on the Democratic gate,
"For," said he, "I'll ketch the office in the mornin',!"

Soon the Congressmen had smoked up every one o' his cheroots,
An' the mud had worn the polish from the leggins of his boots,
An' the office jes' got mixed up in political disputes,
An' Jones—he kinder weakened in the mornin'!

So he boarded of a freight train that was runnin' by the rule,
For he didn't have a dollar, an' was feelin' like a fool;
An' then he went to plowin', with a mortgage on his mule—
An' he cussed out every office in the mornin'!

F. L. S.

SIAMESE TWINS AGAIN.

They were natives of Siam. After traveling all over the world and accumulating a large fortune, they married two sisters (Gates) in Wilkes County, and after settled in Surry County on a large farm not very far from Mt. Airy, about 1845 or '50. They were said to have been fine farmers, very industrious and quite well skilled in doing many kinds of manual labor, such as cutting down trees, loading and driving the wagon, plowing, &c. They had a kind of double house, and one family lived in each end. They each had eight or ten children, which they educated liberally. I think two or three were nates and were educated at the North Carolina Institution for the Deaf and Dumb and the Blind in Raleigh. My friend Z. W. Haynes, a mute teacher, married one of the daughters, and now lives in Raleigh. He will be able to correct any mistakes I may have made in this short article. After settling down to private life they were known by the name of Bunker—Chang Bunker and Eng Bunker.

A neighbor of mine once visited them and told me that they slept on a large double bed—the twins in the middle and the widows on the outside. The families did not entirely agree after they grew to be numerous, so the husband bought another farm adjoining and then alternated themselves between the farms—a week at each one. Having lost their Negroes and much other property by the war, they set about regaining and put themselves on exhibition at Barnum's in New York, where I saw them in 1865 or '66. There are many other things of peculiar interest about them which I hope Prof. Z. W. Haynes will be pleased to tell us.

"God be thanked for books. They are the voices of the distant and the dead, and make us heirs of the spiritual life of past ages. Books are the true levelers. They give to all, who will faithfully use them, the society, the spiritual presence of the best and greatest of our race. No matter how poor I am. No matter though the prosperous of my own time will not enter my obscure dwelling. If the sacred writers will enter and take up their abode under my roof, if Milton will cross my threshold to sing to me of Paradise, and Shakespeare to open to me the worlds of imagination and the workings of the human heart, and Franklin to enrich me with his practical wisdom, I shall not pine for want of intellectual companionship, and I may become a cultivated man though excluded from what is called the best society in the place where I live."—Channing.

### Weather Conjectures.—December—1, 2, 3, 4, snow and storm; 5, 6, 7, 8, 9, 10, 11, stormy; 12, 13, 14, 15, 16, 17, 18, fair and mild; 19, 20, 21, 22, 23, 24, 25, stormy; 26, 27, 28, 29, 30, 31, fair and frosty if wind N. or N. E.; rain or snow if S. or SW.

Farmers should use “NATIONAL” Fertilizer for Tobacco; and “BEEF, BLOOD and BONE” brand for Cotton, Corn and Wheat. Strictly reliable. Ask your Fertilizer Merchant for them. Carefully prepared by

(See top 3d cover page.)

S. W. TRAVERS & CO., Richmond, Va.
College of Physicians and Surgeons,
RICHMOND, VIRGINIA.

HUNTER McGuire, M. D., LL. D., President.
JOSEPH A. WHITE, A. M., M. D., Secretary.

A Three Years' Graded Course,
Comprising the Following Departments:

**MEDICINE,**
THOMAS J. MOORE, M. D.,
Chairman.

**DENTISTRY,**
LEWIS M. COWARDIN, M. D., D. D. S.,
Chairman.

**PHARMACY,**
T. A. MILLER, Ph. G.,
Chairman.

The next regular session of the College of Physicians and Surgeons, Richmond, Va.,
will begin October 2, 1894, and continue six months. The Course will
consist of Recitations, Didactic and Clinical Lectures—special
attention being devoted to Laboratory Work—Demon-
strations on the Cadaver, etc., and Clinics,
according to the grade of the student.

IN DENTISTRY AND PHARMACY Every Facility is Afforded for Thorough
Practical and Laboratory Instruction.

THIS COLLEGE has been established in Richmond, Virginia, the
historic city of the South, in order to give SOUTHERN MEDICAL,
DENTAL AND PHARMACY STUDENTS the same high grade facilities
in a Southern climate as are offered by similar institutions beyond the
Potomac. Everything being equal, high grade, able instructors, clinical
advantages, there is every reason for Southern students to patronize
home institutions. The corps of professors and teachers has been
selected from among the prominent men in Virginia and North Carolina;
the grade of the School has been placed high enough to make a graduate
proud of his diploma; and the laboratory and clinical facilities all that
could be desired. No expense has been spared to gain this end. The
laboratories are large and well equipped for thorough instruction in
Chemistry, Histology, Pathology, Physiology, Bacteriology, Pharmacy,
and Mechanical Dentistry.

THE VIRGINIA HOSPITAL, with a frontage of 110 feet, adjoins the
College buildings, and, with a thoroughly organized DISPENSARY,
affords ample clinics and bedside instruction.

THE RICHMOND EYE, EAR, THROAT AND NOSE INFIRMARY,
at 217 Governor Street, also adds to the clinical advantages.

Attendance upon three full courses of lectures* is required of an applicant
for graduation in Medicine or Dentistry, and credit is given for
courses taken at any accredited Medical School; moreover, this School
accepts certificates of proficiency in any branch from any regular College
requiring a graded course of three or more years.

For catalogue and particulars as to fees, board, clinical advantages,
hospital accommodations, etc., apply to the Secretary,

Dr. JOSEPH A. WHITE,
200 E. FRANKLIN STREET, RICHMOND, VA.

*A three years' course is required for several reasons: Firstly, in the interest of
higher medical education; secondly, because it is demanded by the Association of
American Medical Colleges, of which this school is a member; and thirdly, because
some States have already passed laws making three years of study necessary before a
license can be granted to practice.
THE EDUCATION OF POOR BOYS.

By Dr. John F. Crowell, President of Trinity College, N. C.

The first thing that a poor boy needs in order to get an education is an inspiration that he is worth something to himself. Call it ambition, self-esteem or anything else; it is after all the sense of present and future worth of his native powers that affords the point of departure for him. Whence that sense of personal worth we may not know, or how it comes may be a mystery, but it comes as certain as fate. The dull and hopeless Anthony Trollope, whom his father occasionally knocked down with the family Bible, at last broke the crust of his apparent stupidity, and felt his strength like a young eagle.

The second thing needed is confidence in others. A Baltimore young man, about half a century ago, went to a man of wealth and asked him for the use of a few thousand dollars with which to begin business. "What security have you to give?" asked the merchant. "My own personal honor, sir." The loan was made and so was the fortune of the young man. This incident suggests a third essential besides confidence of others, to the getting of an education by a poor boy, that is, integrity and intelligence. No one will care to help to educate a young man whose character is unsound. Nor will any man in his right senses do much for a lazy, loafing young man—I speak of poor young men. Character is better than collateral. The measure of credit which character can command is simply enormous. I met a manufacturer the other day who told me of a merchant who had failed and settled with his creditors for 50 cents on the dollar, with receipts in full. Then some one turned around and offered the creditors 75 cents on the dollar for the other half of the unpaid debt from which the creditors had released their insolvent debtor. Such was the confidence which he had in the man who had failed but not impaired his power to restore himself in business nor lost his integrity in the time of trial.

Integrity, to define more strictly, means wholeness of character. It must be above price; it must be kept entirely out of the market, for as soon as it or a part of it becomes for sale, then men will not be willing to trust it unless it is plastered over with bonds and mortgages, and the poor young man has none of these. Integrity means truthfulness in act, word and thought alike. A liar is a curse to the human family, because it becomes its destroyer. So, then, as a woman guards her honor, must a man guard this part of his possessions called integrity of character, above suspicion of evil.

Diligence comes of a purposeful life. To what purpose can a young man be living who simply eats, drinks, sleeps and breathes the open air on the street corner, as if he had a perfect right to it? Indolence is vice, or the next step to it. He who will not use opportunities is not the one upon whom to spend money. A poor, indolent young man is a prospective pauper, a criminal potentially. If he can be shaken out of his lethargy, his age will be the richer, for poverty may then be a spur to effort. Senator Simon Cameron, who began very poor and became rich, said of his son Don, that he, the father, had one advantage which Don wanted in starting life; that advantage was in being poor. Poverty is nothing to be ashamed of; but on the other hand it is nothing to boast of. I have known young men who made fools of themselves coddling the notion that their poverty entitled them to future greatness. There is about as much virtue in that as there was in the pious dirtiness of the medieval monks.

A poor young man usually works his way by earning enough to support himself for a time at school or college. If he is a clerk, let him be ambitious to be the best clerk in the store; if a mechanic, let him prove that he is not excelled; if a book agent, let him know that he is carrying the golden treasures of knowledge to thousands to whom the wisdom of the ages would never have come but for him. I thank God for the book agents that have visited the distant rural home of my youth, where the fountains of history were opened to me and the treasures of philosophy were sought in quiet devotion.

Be the best that you can be, young men, then men and women will risk money on you, if you want them to, in your effort to get an education. For every dollar you earn with diligence, integrity and earnestness, you can borrow ten. Every college will trust you to pay your tuition. But be careful about a

dishonest memory; one that forgets obligations or even settles down to the abominable heresy that after all the world owes you a living and that the institution can thank fortune for having had the chance to educate you.

The financial means for a poor young man aspiring after an education are the least difficult to obtain, if the young man has character and can prove that there is something in him. Given character and grit, and he will wedge his way through without asking odds. But he must deny himself of some things in order to make sure of other things. If an education is really what he seeks, let him if possible lay other things aside except so far as they contribute to his main purpose. This is a hard lesson to learn—the long-continued concentration of energies in the line of a well-settled purpose. The majority of men do otherwise; as Emerson says, The key to all ages is imbecility. Most poor young men lack encouragement from their surroundings. Their friends seldom understand them, and were it not for their mothers the world would be far poorer in greatness than it is. It takes pluck to break through the shell of uninspiring environments such as envelope the life of many a country hero. Custom often turns up its nose at the one who attempts to rise above his fellows in his attainments. We fool ourselves in thinking that we Americans are entirely free to emerge from one class to another. Our ignorant democracy, in frowning down aspirations after something above the common level, is no less contemptible than any aristocracy of Europe. We rave at Russia; we pity her in our ignorance of the fact that a peasant boy of talent and real worth has an open way to honor and glory even into the ranks of social and political life; the Universities are open to him, the academies welcome him for his worth. But who has not found the notion extant that a man's social standing may be estimated from the price he pays for board! Yet I do not agree with Dickens, that we are a nation of gluttons.

The chances are, I think, in favor of poverty in the long run. What by eating themselves to gout, and by softening themselves with luxury, or working themselves to pieces in business, the wealthy have not many generations of success to their credit. And yet they have and may hold the field on the one invariable condition—self-denial. That virtue to the rich is what the sacrifices of poverty are to the poor, both serving as the needed spur to higher aims. Knowledge was sweeter than sleep to him who read by the light of the pine-knot on the hearth. But that was a necessity to him and of that he made a virtue. To the rich young man, the invitation to the feast or the reception means much small talk from people who have left their individualities at home. The social pressure to go is great enough to test his strength of self-denial. All credit then to wealthy young men who fight it off for higher things. The wise young man of wealth finds better company in books in which individuals are let loose. But the poor young man need not assert himself against such inducements; he saves that much energy of resistance at least. The solitude of poverty is congenial to him. Chances and risks are counterparts, and poverty ever has its opportunities and its dangers.

Education never ends. After the trial of abstinence, to the poor student comes the flush of success. It makes him unsteady, it is apt rather to do so. His solitude has been his armory; his contact with men to get a livelihood has been the battle-field of his life, and the touchstone of his creed. Where should a poet live? asks Longfellow. In the city. Others say in the country. The ages say—with humanity, past, present and future. But when we see a class of present society capture a genius that was once poor, then there is a crisis at hand. It is only when his attainments shall have made him notorious that the social world, so-called, wishes to touch elbows with him. Until poverty is sugared over with greatness, society would feel quite uncomfortable to find him in its pew at church. That world laid hold on poor Burns and made him a guzzling gauger. Genius cradled in poverty can rarely stand the discipline of luxury; it is much less liable to survive it than the rich to survive poverty. The reason, it seems to me, is this: that genius, once led out of poverty into luxury, cuts off its communion with the ages and lives with those who live in and for the present alone. But that is not education, that is abduction. Of it this age must beware.

AGENTS WANTED.

Works of Charles Dickens In Twelve Large Volumes For Only One Dollar.

Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular today than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skilfully wrought plots. Each book is intensely interesting. No home should be without a set of these great and remarkable works. Not to have read them is to be far behind the times in which we live. The twelve volumes in this set contain the following world-famous works, each one of which is published complete, unchanged, and absolutely unabridged.

DAVID COPPERFIELD, BARNABY RUDGE AND CHRISTMAS STORIES.
MARTIN CHUZZLEWIT, OLIVER TWIST AND GREAT EXPECTATIONS.
NICHOLAS NICKELBY, THE OLD CURiosITY SHOP AND THE UNCOMMERCIAL TRAVELER.
DOMBEY AND SON, A TALE OF TWO CITIES, HARD TIMES
BLEAK HOUSE, AND THE MYSTERY OF EDWIN DROOD.

The Electropoise cannot now be ignored. It is an established fact. Oxygen is the great life feeder. We cannot live without Oxygen. Nature supplies the oxygen needed through the lungs. When the lungs are diseased the supply is largely cut off, or when the man is weak and breathes slowly and feebly the needed oxygen is not supplied to the blood.

The Electropoise supplies the oxygen directly to the blood without any effort on the part of the patient. It is the simplest of all treatments. It is bound to come quickly into universal use. One answers for a whole family, and will last for many years. You buy no more drugs, and hence the Electropoise will quickly pay for itself.

I know of many families now using the Electropoise, and not one is willing to give it up, or let it go out of the house.

Last summer I bought one for an invalid member of my family. The effect has been truly a benediction. The Electropoise is now the favorite of the whole family. We could not let it go out of the house. Providence, in mercy, sent it along this way.

I can sell you one for $25 cash down, regular price. Or I can rent you one three months for $10 cash. You can then return it or keep it by paying $17.50 additional.

I am authorized to receive orders by mail.

d. for Democrat; r. for Republican; p. p. for People's Party.
BRANSON'S
Agricultural Almanac!

GOLDEN WORDS:

NEWS- OBSERVER-CHRONICLE:—“Great care has been taken to secure absolute accuracy of Court, calendar and the officers of public institutions. This, with the two pages of the County officers all over the State, make it an Alamanac of very great value—happily, no other like it.”

DURHAM DAILY SUN:—“Branson’s Almanac for 1894 comes to us again, valuable as many years past.

THE NORTH CAROLINIAN:—“Branson’s Almanac for 1894 is at hand, and is always a Marcos.”

THOMASVILLE NEWS:—Branson’s Almanac for 1894 is before us, bright and accurate as ill.

THE LIVING-STONE:—“The calculator, owner and publisher, Levi Branson, A M., D. D., accept our thanks for a copy of Branson’s Almanac for 1894. Each year is an improvement on the former one. Our State pride compels us to admire it.”

DAVIE TIMES:—“It is reliable, and saves every family much valuable time.”

BRYSON CITY TIMES:—“The Almanac is always carefully calculated, and is what it means to be, that is, a valuable hand-book of information.”

ALAMANCE GLEANER:—“Worthy of a place in every household. One can hardly find a better book of greater value.”

DAVISON DISPATCH:—“It is one of the best of its kind.”

SPIRIT OF THE SOUTH:—“It is well filled with useful information, and is richly worth price, ten cents.”

DAILY WORKMAN:—“Persons who have used Branson’s Almanac for past years, will not be disappointed with the coming edition.”

PROHIBITION LEADER:—“The star edition is superior to any before issued—calculated Mr. Branson himself. He is a native of the State, and eminently qualified to publish a superior Almanac.”

GOLD LEAF:—“It is thoroughly reliable and emphatically unsurpassed. The States are properly given, also the time of holding the County, Superior and Federal courts. The Branson maxims are well worth reading.”

THE SOUTH:—“Has many wise sayings in brief form.”

NEWBERN WEEKLY JOURNAL:—“As a Hand-Book for the people it is full of what is needed by every citizen.”

WESTERN CAROLINIAN:—“It is what is daily needed by each and every citizen.”

ORANGE COUNTY OBSERVER:—“Branson’s Almanac is useful in every family.”

ROANOKE PATRON:—“As a hand-book for the people, it is full.”

SPIRIT OF THE AGE:—“Few names are more familiar to the golden mediocrity than Branson’s Almanac.”

HIGHLANDS STAR:—“This valuable household necessity is filled with interesting matter courts, officers of the State, public institutions,” etc.

LYCURGUS HOFLER, Register of Deeds Gates County:—“It is superior to any that I have seen.”

WEEKLY NEWS:—“It is the best 10-cent-hand-book the farmer can buy—no other like it.”

DAILY JOURNAL:—“Full of valuable reading matter—worthy of a place in every home and place of business. Is equal to the best.”

THE TRUTH:—“The people hang it in the chimney-corner and refer to it all the year round. It gives them more useful knowledge about the State than can be found in any other book for the same small price.”

LEXINGTON LEDGER:—“It is well worthy of the support it so richly deserves.”
BRANSON'S
Agricultural Almanac

GOLDEN OPINIONS:

RALEIGH EVENING VISITOR:—"Dr. Branson takes great care to have all the County officers, State officers, both full and accurate."

CHRISTIAN SUN:—"Dr. Branson has for many years done the State valuable service on this line, as did Dr. Franklin for the State of Pennsylvania in his day."

W. R. HARRIS, Troy, N. C.:—"More information in it than any I have received in years."

THE CAROLINIAN:—"This little book is a favorite throughout the State—price, 10 cents!"

TRUTH, Salisbury:—"Branson's Almanac is a household word."

WILMINGTON MESSENGER:—"This number holds up the reputation of this old publication and its varied contents make it a valuable household friend to every North Carolinian."

WILMINGTON DAILY REVIEW:—"The Egyptians, Greeks and Romans had their Almanac and so have all modern people, but perhaps none have better or more valuable than made right here in the Old North State. Dr. Branson has for many years done the State a valuable service in this line."

ORANGE COUNTY OBSERVER:—"Branson's North Carolina Almanac, as an old friend comes every year with a familiar, smiling face. The title page has a fac-simile of the State coat of arms and of the Great Seal of North Carolina. Every page looks bright and new and yet cheerful as a bosom friend. Much valuable information is given on almost every page about our native State, such as you cannot find in patent medicine calendars. A short calendar on the last page is always handy. Few nouns are more familiar to golden mediocrity than that of Branson's Almanac. It has carried knowledge, science and fun into thousands of happy North Carolina homes."

HENDERSON GOLD LEAF:—FACTS ABOUT IT—NO OTHER LIKE IT.—"1. The calendar calculated by Branson himself, and guaranteed to be correct to the nearest half minute—no other like it. 2. It has the weather carefully conjectured according to the best scientific knowledge—no other like it. It stands the test of an intelligent public."

WINDSOR LEDGER:—"It is full of useful things."

SPIRIT OF THE AGE:—"It has carried knowledge, science and fun into thousands of North Carolina homes."

PINE KNOT:—"It certainly merits its long continued prosperity."

PRICES:

1 Almanac, sent by mail, - - - - - - $ .10
1 Dozen Almanacs, sent per mail, - - - - - - .75
½ Gross, sent per express, - - - - - - 3.75

Importers, Jobbers and Retailers of
Dry Goods
AND KINDRED WARES.

Our stocks are the largest in North Carolina, both wholesale and retail.
Our store is one of the places of interest in the city, and strangers are always cordially welcomed, and every attention will be shown them, whether as purchasers or otherwise.

W. H. & R. S. TUCKER & CO.,
123 and 125 Fayetteville Street,
124 and 126 Wilmington Street,
RALEIGH, N. C.
SPECIAL ANNOUNCEMENTS.

The Thirty-fourth Annual Fair of the North Carolina State Agricultural Society will be held at Raleigh, October 16, 17, 18 and 19, 1894.

The people of the State and of other States are cordially invited to participate in the occasion, both as actors and observers; and with this invitation goes the announcement, without reservation, without exaggeration, that this coming event will be the greatest, most comprehensive and most interesting one of the kind ever known in North Carolina.

The aim and object of the Society is to make each Annual Fair more valuable and more instructive to the people than its predecessor; and in connection therewith to engage and produce such features of amusement as have power to educate, and at the same time enrich and enliven the general programme, thus making the week a pleasant and enjoyable one to the many who take it as the occasion for an annual meeting and reunion of acquaintances and friends from all sections of the State.

ATTRACTIONS.

The Premium List is issued too early this year to permit positive announcement of attractions, but negotiations are being had for the newest and best that the genius of the times has been able to create, and the people may begin preparations for attending the Fair with the assurance that it will present the most novel, beguiling and exhilarating features of amusement procurable.

A special object this year will be to secure and exhibit the products of the State on a larger scale than ever before attempted, and to make the exhibit a great object-lesson for the people. No effort will be spared to make this feature more noteworthy and successful than it has ever heretofore been. The purpose is to have such products displayed in competition for prizes as well as otherwise. Such competition broadens the market for the producer, gives an impetus to trade through the simple exhibition of trade's possibilities and tends to the growth in excellence of everything involved in the contest.

In the following pages will be found the substantial inducements offered to the Agriculturist, Breeder and Manufacturer to exhibit their products. Their interest and co-operation are wanted and their correspondence is earnestly solicited. The premiums are so proportioned as to guarantee the expenses of the majority of worthy exhibitors, and splendidly reward those who excel. It is the privilege of a North Carolinian to exhibit for personal satisfaction; but it is a duty to exhibit for the benefit of the State at large.

There will be during the week

SOLDIERS' DAY,

FARMERS' DAY,

EDUCATION DAY.

There will be a particularly special and appropriate programme for each of these days, the details of which will be given later through the State press and various circular publications.
RAILROAD RATES, ETC.

The Railroads have announced a passenger rate of one fare for the round trip, from all points in the State to Raleigh for patrons of the Fair.

Full freight rates will be charged on all exhibits from shipping point to Raleigh. Exhibits will be returned to shipping point free of charge when accompanied by a certificate from the Secretary to the effect that they were properly entered and exhibited at the Fair. This provision does not apply to racing stock.

Arrangements have been made to have all bulky exhibits, except live stock, delivered at the grounds by the railroads.

EXPRESS, TELEGRAPH, ETC.

The Southern Express Company will charge full rates to Raleigh on articles for exhibition, but will return same to point of shipment free.

The Postal Telegraph Company will have an office on the grounds.

IMPROVEMENTS.

Various improvements will be made in buildings, stables, stalls, pens, etc., for the convenience of exhibitors and stock.

RACES.

The large and increasing interest in the development of thoroughbred harness and trotting horses in the State now insures the possibility of having a large field of fine and speedy horses on the race circuit this year, and the Society will seek to eclipse all former efforts in this department. Classes, programmes and purses will be announced about August 15. The race track is the finest in the South.

President Agricultural Society of N.C. College of Agriculture and Mechanic Arts.
ADVERTISEMENTS.

R. EAMES, Jr., M.E., President, GEO. ALLEN, Sec. V. H. BOYDEN, Vice-President and Treasurer. Salisbury, N. C.

THE ALLEN & BOYDEN COMPANY

Real Estate Agency.

INCORPORATED.

CITY REFERENCES BY PERMISSION: * Realty Bought and Sold Strictly on Commission.
His Excellency, Governor ELIAS CARR. * Especial attention given intending settlers and investors.
Hon. JOHN ROBINSON, * Reliable information in regard to Timber, Mining Col. of Agriculture and Immigration. and Farm Lands, Water Powers and Manu-
Col. A. B. ANDREWS, * No attention paid to "booms": only legitimate
Of the R. & D. R. R. Co. * business sought.
COMMERCIAL AND FARMERS 
BANK, Raleigh. *

RALEIGH, N. C.

The Allen and Boyden Company was organized and chartered under the laws of North Carolina, for the purpose of promoting sales of Real Estate, Timber and Mining Property, Water Powers, Mineral Springs, Hotels, Residences, etc., and for giving full and reliable information to persons desiring to settle in the State.

A registry has been opened at the office of the Company, 107 Fayetteville Street, Raleigh, for the purpose of recording property, with full description and price, that may be for sale in any part of the State. Owners of such property, or persons desiring to purchase, are invited to correspond with the Company. No charge is made for registering property, or for giving information. If sales are made, a reasonable commission will be charged.

If you wish to settle, buy or sell, write to

THE ALLEN AND BOYDEN COMPANY, Raleigh, N. C.

Mechanics and Investors' Union,

RALEIGH, NORTH CAROLINA.

A Savings and Loan Company for North Carolina investors and borrowers, organized in Raleigh and chartered under the Building and Loan Laws of North Carolina. A Company whose income, or deposits, are all loaned upon city and town real estate in North Carolina on eight years time, with easy monthly payments.

A payment of 65 cents per month will mature $100 in about eight years time. A payment of $6.50 per month will mature ten shares, and will return $1,000 in cash.

If a member, whether an investing or a borrowing member, should die during the time, and before the maturity of the stock, the payments will be made until maturity from the Guarantee Fund, without further cost to his estate.

For information regarding investment stock, or loans, address

GEORGE ALLEN, Secretary,

107 Fayetteville Street, RALEIGH, N. C.
1. Until this year the management has confined competition to productions of our own State. The bars are thrown down, and competition with us now is open to the world, and friendly challenge extended, except in instances specified.

2. The gates will be open for the admission of visitors at 8 o'clock A. M. each day, and close at 6 P. M.

3. All employees of the Fair must be promptly on hand at their posts at 8 o'clock A. M. each day of the Fair, and remain on duty till six o'clock P. M. (except night force).

4. Every reasonable effort will be made by the officers of the Society and those in charge of the grounds to protect the property on exhibition from loss or damage, but the Society will not hold itself responsible should loss or damage occur.

5. Drunkenness, quarreling, or the use of profane or obscene language, also gambling, pool-selling, or other games of chance, will not be allowed on the grounds; nor fireworks, petroleum, gunpowder, or any other objectionable or dangerous materials whatever.

6. Persons desiring space for the exhibition of articles or machinery not entered for competition must apply to the Secretary as early as possible, giving the name of the exhibitor and article, place of residence, and the amount of space required.

7. Exhibitors of horses, cattle, sheep and swine will be required to display over each stall or pen, occupied by their stock, a placard containing the name, age and breed of animal occupying the stall or pen, and also the name and address of the owner. The placard will be furnished and filled up at the Secretary's office.

8. All officers and employees are requested to wear badges during the Fair.

9. No peddling, hawking or selling of any kind will be allowed in the buildings on the grounds, except by a special license obtained from the Secretary of the Society.

10. The distribution of handbills or other advertisements that may cause a nuisance is strictly prohibited about the grounds or buildings.

11. No article or animal will be entitled to space until the proper entry has been made. After an article or animal has been entered for a premium, it cannot be removed until the close of the Fair without permission from the Secretary or the Supervisor in charge of the department; and if any person removes an article or animal without such permission, he forfeits all claims to a premium, even if the same may have been awarded.

12. Each department will be under the special charge of one member of the Executive Committee, who shall be known as the Director of that department. He will oversee the arrangement of all articles offered for exhibition in his department, and have control of the space assigned to it. He will be assisted in his duties by a special superintendent, who will receive all exhibits, take personal charge of them, countersign the exhibitors' coupons, and deliver the articles on the surrender of the countersigned coupons at the close of the Fair.

13. The exhibition of articles not mentioned in the premium list is solicited. These will be assigned to proper departments, displayed to visitors and reported on by the judges.

14. The Executive Committee reserves the right to withhold premiums in any case in which it shall appear to them that the regulations have not been complied with, or that fraud or deception has been practiced or attempted.

15. There will be a free Bureau of Information at the main office, where all questions will be cheerfully answered.

16. Exhibitors must provide at their own cost all show-cases, shelves, counters, fittings, etc., which they may require.

17. Exhibitors' business cards, pamphlets, circulars, samples, etc., may be placed within and be distributed from within the space allotted them.
ADMISSION.

18. The gates will be open at 8 o'clock A. M. each day.

Single ticket, admitting one person once ........................................ $ 50
All horses and vehicles, except vehicles for hire ................................ Free
Each person in any vehicle, single ticket ........................................ 50
Children between 7 and 12 years of age ........................................... 25
Children under 7, accompanied by parents ........................................ Free
Badge for Licensed Hack, admitting hack and driver at either gate at all times during the Fair ...................................................... 5 00
Badge for Supply Wagon for parties renting stands, admitting wagon and driver to the grounds at all times each day of the Fair .......... 1 00
Coupon Tickets, for employees of exhibitors, and good for one admission each day of the Fair ....................................................... 1 00

19. Members of committees and Life Members when reporting to the Secretary will receive admission tickets.
20. Laborers employed upon the grounds will apply to the Secretary each evening for admission tickets to the grounds next morning.
21. No person will be permitted to remain on the grounds over night, except those holding permits, which must be secured from the Secretary.
22. No reduced rates will be given to schools or organized bodies or combinations of persons.

23. SPECIAL RULE (a).—The Society makes no charges for space and except in special instances exacts no entrance fees. This is a liberal policy toward exhibitors, and in no case, except where entrance fees are charged, will tickets be issued to exhibitors. Where entrance fees are not charged, tickets will not be issued to exhibitors; nor will tickets be issued to attendants without the payment of $1.00, which will secure a ticket good for one admission each day of the week. THERE WILL POSITIVELY BE NO INFRACTION OF THIS RULE.

24. SPECIAL RULE (b).—Complimentary tickets, Life Members' tickets, Committee tickets and Employees' tickets will not be honored at any place of admission except the “PASS GATE” on the Hillsboro road, front of the Fair Grounds.

ENTRIES.

25. The entry-books will be open at the office of the Secretary of the Society, in the city of Raleigh, from September 15 to and including the Friday next before Fair Week, and at the Secretary's office at the Fair Grounds on Saturday and until 5 o'clock P. M. on Monday, when all entries will close. Much trouble and annoyance may be avoided by observing this regulation.

26. Entries are free except under conditions specially mentioned in the Premium List.

27. Entries may be made in person or by letter. In making entries it will be necessary to give the name of the article, the name and post-office address of the exhibitor, and the premium number under which the article entered is to compete. This is especially necessary in order that the article may be properly entered.

28. All articles which are the product of the soil must be entered in the name of the producer. Those showing HANDIWORK or SKILL must be entered in the name of the one whose skill they exhibit. Such may be individuals, firms or factories. They must have been made within three years, and not exhibited at any former Fair of this Society. All other property must be entered in the name of the actual owner. Any violation of this rule will bar the violator from competing for any premium whatever, and render him and his exhibit liable to expulsion from the grounds.

29. In case special facilities for meritorious exhibits are required, such entries shall be made before September 15. Any person may enter as many different articles as he or she may own, in any department.

30. The same article or animal may compete for the premiums of two or more premiums, except when otherwise stated; but, in order to do so, must be entered under each.
31. All entries will be numbered and recorded in the books of the proper Department and Class, and corresponding tags will be issued, which must be attached to the exhibit before such can be placed on exhibition.

32. Contrary to the customs of most agricultural societies, the Society has decided that the names of all exhibitors shall be placed on the cards attached to the articles on exhibition, except in Department E and Department H, as to do otherwise deprives exhibitors of one of the main features of these exhibitions, viz., advertising.

33. No person will be allowed to see the entries or have access to the entry-books until after the awards are made.

34. All entries shall be for the first premium of the premium number under which they are entered; but, failing to take the first, shall compete for the second, if a second is offered; and, failing to take the second, shall compete for the third, if any; but shall not be awarded more than one premium under the same premium number.

35. Exhibitors must see to the proper delivery of articles and live stock on the grounds, and to the proper care of the latter, as no charges for transportation or drayage will be paid by the Society.

EXHIBITS.

36. The grounds will be in readiness for the reception of exhibits any time during Thursday, Friday and Saturday preceding the Fair, but no exhibits will be received Sunday except live stock from a distance that may have been delayed in coming. Neither will exhibitors be permitted to make any arrangements on that day except such as the Superintendent may deem necessary.

37. Articles and animals provided with the required entry tags will be assigned places by Superintendents of Departments until Tuesday, October 16, at 12 o'clock M., after which no more will be received in departments where premiums are offered, except in classes where perishable goods are entered.

38. Exhibitors must see to the proper delivery of articles and live stock on the grounds, and to the proper care of the latter, as no charges for transportation will be paid by the Society.

39. All animals must be exhibited in such places and at such times as the Superintendent in charge shall direct, in accordance with the official programme.

40. Any and all articles obnoxious or repulsive in their character shall be excluded from the grounds, or if entered without being fully known, shall be removed at once.

41. Ladies from a distance desiring to exhibit textile fabrics may ship their goods to the Secretary, but in no case will he, or the Association, be responsible for any loss, damage or breakage. Goods so shipped must be directed to the Secretary, "Main Gate," Fair Grounds, and must arrive not later than Monday, October 15, after which date none will be received. No package will be accepted unless freight is prepaid.

Special notice is hereby given that none but textile goods and art work can be consigned to the Secretary for exhibition or competition.

42. Exhibitors will be required to keep their space and stalls in a cleanly condition, by removing therefrom any filth or litter, and place it in front of said space or stall, where the scavenger force of the Association may get to it with ease.

43. Should any person misrepresent his exhibit, and a premium be awarded upon it, such premium may be withheld by the Executive Committee.

44. SPECIAL NOTICE.—Read carefully this rule as touching all exhibits. Exhibits not in place, and fully installed by 12 o'clock Tuesday, October 16, will receive no attention whatever from Awarding Committees, or Experts.

This is but just to both exhibitors and management—more so to exhibitors. The prime object of all exhibits is to show them to the public. Provisions are made for, and exhibitors should have, five full days in which to do this. The management should fulfill its pledge to give four days' exhibition.

Exhibitors can have the use of halls and grounds for any reasonable number of days preceding opening day proper, in which to place their exhibits. There is no good reason for delay. Hence, it is repeated, this rule will be rigidly enforced "for the good of all concerned."
PREMIUMS.

45. A premium ribbon is a badge of merit; and in no case should it be attached to
article or animal where meritorious qualities are lacking.
46. The premiums are designated by ribbons: blue meaning first, red second, and
white third premium. These ribbons will be attached only by the Director of each
department, or his superintendent, after Judges or Committees have made their
awards and the same have been approved by the Director.
47. The Society deems its diploma or medal to possess value equal to a cash pre-
mium of twenty-five dollars. The exhibitor entitled to a prize, equal to that amount,
will be at liberty to commute a money premium for a diploma or medal, but not the
award of a diploma or medal into a money premium.
48. Premiums are payable thirty days after the close of the Fair, and if not claimed
by the first day of February, 1895, will be regarded as donated to the Society.
49. Medals and diplomas will be delivered at any time between November 1 and
December 31, 1894.

INSTRUCTIONS TO SUPERINTENDENTS.

50 No Superintendent of Department will be permitted to employ help without
written authority of the President or Secretary, and the Fair Association will not
become responsible for the pay of help employed without such written authority.
An order for all supplies must be obtained from the Secretary.
51. Superintendents of Departments will be in attendance from 8 A.M. to 6 P.M.,
at their respective posts on the grounds. Monday, October 15, to Saturday, October
20, inclusive. They will have exhibits promptly placed, and Departments must be
in complete order by 12 M., Tuesday, October 16.
52. They will receive all property entered for exhibition, see that the tags are
securely attached, and place and arrange such property in a suitable and attractive
manner.
53. If erroneous entries are made they will make the necessary corrections, or
cause such to be made in the official entry-books.
54. Superintendents will point out to the Judges of Award the articles or animals
to be inspected, and cause the same to be displayed in their proper places and at the
proper time.
55. They will see that order and decorum are observed in their Departments, and
that property is protected against damage and loss by accident or otherwise.
56. They will also see that no property is removed before the appointed time, and
that the checks are detached from the tags of property when removed, as a means
to prevent fraud or mistakes by such removal.

JUDGES.

57. The Society reserves the right to use either the single or three judge system, or
both, during the Fair of 1894. Special care will be taken to secure the best and most
competent judge or judges for the various departments that can be had.
58. The Judges of Awards, when ready for duty, shall be furnished by the Secre-
tary with a list of all entries in their respective departments, and books in which
their awards are to be recorded.
59. Should any of the Judges previously selected fail to be present, the Director of
each department is authorized to select others to fill the vacancies, always endeavor-
ing to select persons duly qualified by their pursuits or experience to make correct
awards in each special department. In all cases, the Judges, before awarding any
premium, will be careful to see that the requirements of the Premium List have been
strictly complied with by the exhibitor.
60. No person, directly or indirectly interested, will be allowed to serve as a Judge,
and the Executive Committee will quash the awards in every case, when a person
interested has acted as Judge; nor shall a member of the Executive Committee act
as Judge of Award or umpire, under any circumstances.
61. Judges are expected and specially instructed not to award premiums to any
animal or article because of its presence. It must be individually worthy. It is not
the policy of the Society to encourage indifferent productions of any kind, or to dis-
tribute premiums equally among exhibitors, and no premium should be awarded to any animal or article that does not possess high intrinsic merits.

62. When two subjects of the same kind, presented for premiums, are deemed by the Judges of equal merit, and also of such high degree that to either, if alone, the premium would be awarded, in such case the award must be to divide the first and second premiums equally between the two competitors; or, in case there shall have been no second premium offered, then to divide the first only in like proportion.

63. The Director in charge and the Special Superintendent shall attend the Judges when making the examinations in their respective departments, and furnish them with all required information. Premiums will not be paid to parties having exhibits where it is proven that they accompanied the Judges when awarding the premiums. The awards, when completed, shall be signed by the Judges, and also by the Director, who will take charge of the book and return it to the Secretary. As the awards are made, the Director or his Superintendent will attach the ribbon indicating the award.

64. Decisions of Judges shall be final, and no appeal will be considered except in cases of protest in writing, with strong evidence of fraud or violation of the rules of the Society, which may be filed with the Secretary before the premiums have been presented.

65. Reports must be signed by each Judge in his own hand.

66. Judges cannot award premiums to articles not in the regular premium list, but may make recommendations and file these with the Secretary, who will present them to the Executive Committee.

GATE-KEEPERS AND POLICE.

67. Gate-keepers will be clothed with police authority, and are required to preserve order at the gates. They must not receive money for admission under any circumstances.

68. All tickets—Life Members' tickets or other tickets—presented by persons not entitled to hold them, must be taken up, and those offering them required to purchase others before entering the grounds.

69. The Superintendent of Police shall have charge of the police force on the grounds (under control of the Secretary), and it shall be his duty, with the assistance of his aids, to preserve order.

70. The policemen shall be sworn in as conservators of the peace and it shall be their duty to arrest any personcreating any disorder, or violating any of the rules of the exhibition or laws of the State.

71. The Superintendent of Police shall detail a suitable number of his force for night service, and any one employed, day or night, who shall neglect the particular duty assigned him or leave his beat without permission, shall forfeit all or part of his pay, as the Superintendent of Police may determine, and no bill for police service shall be audited except presented and approved by the Superintendent of Police.

72. The policemen and gate-keepers will be promptly on the grounds at 8 A.M., each day of the Fair.

PRIVILEGES.

73. Application for privileges should be made early to the Secretary, in person or by letter, and a deposit will be required in every instance where a contract is made.

74. One ticket, good for one admission each day of the Fair, will be given for every ten dollars of privilege money paid.

CARE OF STOCK.

75. Straw for bedding will be furnished by the Society free of charge. Arrangements have been made with a responsible party to furnish hay, corn, oats and chop feed on the grounds at market prices, in quantities to suit purchasers.

76. In order to accommodate exhibitors to the best advantage, applications for stalls should be made to the Secretary as early as possible. No charge is made for use of stables by animals regularly entered for competition.

77. Thursday will be the day of the parade, and all stock must come out in the parade or forfeit their premiums, except in cases where stock is not able to come out, or too vicious, and that to be decided by the Superintendent in charge.
"IT SHOULD BE USED IN EVERY FAMILY OF CULTURE IN WHICH THE ENGLISH LANGUAGE IS SPOKEN."

A STANDARD DICTIONARY OF THE ENGLISH LANGUAGE

UPON ORIGINAL PLANS.

Designed to give, in complete and accurate statement, in the light of the most recent advances in knowledge, and in the readiest form for popular use, the Meaning, Orthography, Pronunciation, and Etymology of all the words and the Idiomatic Phrases in the speech and literature of the English-speaking peoples.

Prepared by more than Two Hundred Specialists and Other Scholars.

The editors engaged upon the various departments of the Dictionary have been selected from the front rank of English and American scholars; each is representative of all that is latest and most approved in his own field of exploration and research; and each is an accepted authority in his sphere. From beginning to end, the Standard Dictionary is the work of men thoroughly equipped in the schools of science, literature, and art, and of experts in all handicrafts and trades.

It embodies many new principles in lexicography. It contains over 2,200 pages; nearly 5,000 illustrations, made expressly for this work; nearly 300,000 words, which is more than twice the number of words in any other single-volume dictionary, and about 75,000 more than in any other dictionary of the language.

SOLD ONLY BY SUBSCRIPTION.

A CATALOGUE FOR THE ASKING.

Reduced Prices ON THE BOSS COTTON PRESS.

While we have sold over 4,000 BOSS COTTON PRESSES, ginners have complained of the price as high, because comparison was made with inferior presses. We have this year determined to cut our profit to the lowest figure, and the reduced price of raw material enables us to make a big reduction. Write for prices on it and other Presses, Engines, Boilers, Saw-mills, Gins, Pulleys, Shafting, etc.

THE ROSS ENSILAGE CUTTER.

We Hereby Challenge the World to produce the equal of this Cutter. We claim that we can cut more food in less time, with shorter knives, with less power, and more satisfactorily, than with any other cutter made.

WE GUARANTEE it to do better service in the way of hard usage than any other machine.

### COUNTY EXHIBITS.

A display offered as a County Exhibit must include articles and contributions in its make up from not less than seven citizens of the county from whence it comes, and the party or parties in charge of the same must present to the Secretary a certificate, signed by a majority of the Board of Commissioners of such county, to the effect that the exhibit is fairly representative in its nature, of the county, and is sanctioned as such by the Board of Commissioners.

The county of Wake will not compete for the premiums offered.

#### Articles in County Exhibits cannot compete for other premiums

163. Best agricultural exhibit by any county in the State $60 00
164. Best mineral exhibit by any county in the State $60 00
165. Best live stock exhibit by any county in the State $60 00
166. Best exhibit of peanuts by any county in the State $25 00
167. Best exhibit of rice by any county in the State $25 00
168. Best exhibit of cotton by any county in the State $25 00
169. Best exhibit of tobacco by any county in the State $25 00
The Cultivator and Country Gentleman

Devoted to:

Farm Crops and Processes,
Horticulture and Fruit Growing,
Live-Stock and Dairying,

While it also includes all minor departments of Rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a Summary of the News of the Week. Its Market Reports are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—When to Buy and When to Sell. It is liberally Illustrated, and by Recent Enlargement, contains more reading-matter than ever before. The subscription price is $2.50 per year, but we offer a special reduction in our

Albany, N. Y.
Unless the Judges deem the animal individually worthy, they will withhold premium.

Pedigrees for this section must be fully verified and filed for examination and approval with the Directors of this department. Reference will be made to the English Stud Book, the American Turf Register, Wallace's or Bruce's Stud Book, or others of equal standing. Stallions or jacks only admitted to competition that have served ten mares during the season.

Exhibitors of horses will be required to test their animals under the direction of the judge or judges who may have charge of the class in which the entries are made. The judge or judges have full power to rule out of competition all who do not comply with their requirements.

Horses to compete for premiums must be sound, except in cases of stallions or mares injured by accidents which do not impair them for breeding purposes.

The age of horses and foals will be reckoned from January 1. All foals will be considered one year old on the 1st of January succeeding birth.

From 10 A. M. to 4 P. M. all stock must be uncovered, and an attendant there to answer all questions politely.

All stock must take part in the grand parade.

THE STANDARD

As Revised and Adopted by the American Trotting Register Association, May 19, 1891.

In order to define what constitutes a standard bred horse, and to establish a breed of trotters and pacers on a more intelligent basis, the following rules are adopted to control admission to the records of pedigrees. When an animal meets the requirements of admission and is duly registered, it shall be accepted as a standard bred animal:

1. Any trotting stallion that has a record of two minutes and thirty seconds (2:30), or pacing stallion that has a record of two minutes and twenty five seconds (2:25), or better, provided any of his get has a record of 2:35 trotting, or 2:30 pacing, or better, or provided his sire or dam is already a standard animal.

2. Any mare or gelding that has a trotting record of 2:30, or pacing record of 2:25, or better.

3. Any horse that is the sire of two trotters with records of 2:30, or two pacers with records of 2:35, or one trotter with a record of 2:30, and one pacer with a record of 2:25, or better.

4. Any horse that is the sire of one trotter with a record of 2:30, or one pacer with a record of 2:25, or better, provided he has either of the following additional qualifications: (1) A trotting record of 2:35, or a pacing record of 2:30, or better. (2) If the sire of two other animals with trotting records of 2:35, or pacing record of 2:30, or one trotter with a record of 2:35, and one pacer with a record of 2:30, or better.

5. Has a sire or dam that is already a standard animal.

6. Any mare that has produced a trotter with a record of 2:30, or a pacer with a record of 2:25, or better.

7. The progeny of a standard horse when out of a standard mare.

8. The female progeny of a standard horse when out of a mare by a standard horse.

9. Any mare that has a trotting record of 2:35, or a pacing record of 2:20, or better, whose sire or dam is a standard animal.
Others are curious to know the secret of their old age. We have lived a long and prosperous business career. Do you want to know the reason why? We have always dealt fair and square; have offered the first-class article at the lowest price, and have kept up to the times in new improvements. We have kept the confidence of our customers by doing exactly as we agree.

IVAN M. PROCTOR, Director.

Unless the Judges deem the animals individually worthy, they will withhold premiums.

All except Grades or Natives must be registered and certificates of registration filed with the Secretary. In all entries for Grades, either the sire or the dam must be registered thoroughbred, and so proven.

Cattle arriving at the limit of age during the month of October of holding the Fair, shall be deemed to be under that age.

Cattle entered for individual premiums can also compete in herds. A herd consists of one bull and not less than four cows or heifers over one year old.

The very best way to know whether Dobbins' Electric Soap is as good as it is said to be, is to *try it yourself*. It can't deceive YOU. Only be careful not to get an imitation. There are a great many Electrics and Magnetics, all intended to deceive the public into supposing that they are Dobbins' Electric, or just as good. We have made this since 1869. It is the original Electric, and is guaranteed to be worth four times as much as any other soap ever made. For washing anything, from the finest lace to the heaviest blanket, it is without a peer. Only follow directions.

Read Carefully all that we say on the two wrappers around the soap, and then see for yourself whether or not you can afford to ever use any other soap than this, after having heard its own story, told you by your own test of it.

DAIRY COWS.

(WITH THE COOPERATION OF THE N. C. AGRICULTURAL EXPERIMENT STATION)

OPEN TO ALL BREEDS OWNED IN NORTH CAROLINA.

$40 TO FIRST.  $25 TO SECOND.  $10 TO THIRD.

It is well known that cows capable of the largest yields of milk, butter and cheese are so highly organized that any undue or unusual movements excite them, diminish their yields of milk and reduce the quality of what they do yield. Hence, the quiet of their usual home surroundings is the best place to make these tests, which shall be made known and the prizes awarded when the cows are placed on exhibition at the Fair. The tests shall be conducted at some time during the month of September by some member of the staff of the North Carolina Agricultural Experiment Station commissioned to make them.

CONDITIONS OF THE TESTS.

The cows tested must be entered on the regular books of the State Agricultural Society as members of herds competing for herd prizes, or for best cows in their respective classes at the State Fair, and they must be there exhibited or no prize will be awarded even if otherwise deserved.

The prizes will be awarded to the cows which score the highest number of points and which appear on the Fair Grounds in the respective exhibits of their owners, according to the order of the scores earned by the cows.

The highest number of points earned secures the first prize of $10.00.

The second highest number of points earned secures the second prize of $25.00.

The third highest number of points earned secures the third prize of $10.00.

In order to have this test conducted, an owner of cows should enter his herd or individual cows with the Secretary of the Fair for the regular herd or individual prizes, then request a test and name a date in September on which he would like to have the test made. If other dates do not interfere, that will be the date for the test if the Station representative can reach the place in season, otherwise another date will be arranged convenient to both parties. When the date is agreed upon a deposit of $10.00 by each person so entering his cows must be made with the Director of the Experiment Station as a forfeit to partly defray the expenses of the test if the cow is not regularly exhibited. This money is to be returned by the Director whenever satisfactory evidence is given that the tested cow has been placed on exhibition at the Fair.

RULES FOR CONDUCTING THE TEST.

The owner of a cow to be tested shall file a sworn statement with the Station representative before the test begins, stating—

1st. The breed; number, if registered, and age of cow in years.

2d. The number of calves she has produced; date of last calving; dates of last bull service and when expected to come in milk again; or if not bred so state.

3d. The separate kinds and amounts of food eaten by the cow in the last ten days before the date of the test, and the value of each per ton in dollars. If quantity and quantity of food was changed in that time, state how much, and why.

4th. The Station representative will carefully weigh and record the food of each cow tested for the 24 hours of the test, beginning with the evening previous to the day of the test, and he will also inspect the paj and weigh the milk for the last milking before the test begins.

5th. The Station representative shall not interfere with the usual hours of feeding and milking cows except to see that 24 full hours, and no more, are allowed for secretion of milk, and to assure himself of the weight of all the food given the cows under test. He should weigh or measure the water drunk, if convenient, without disturbing the cows undergoing the test.
THE N. C. AGRICULTURAL EXPERIMENT STATION AT RALEIGH.
6th. He will weigh and inspect the milk paid before each milking on the day of the test, and weigh and take so much of the milk as will insure an ample amount for specific gravity and fat determinations.

7th. He will proceed with the tests without delay, and may present the owner of each tested cow a copy of what he finds, upon the owner’s faithful promise not to divulge the result to anyone until after the coming State Fair; but the representative shall impart such information to no other person except the Director of the Experiment Station, who will keep the tests secret until after the public announcement has been made at the State Fair.

8th. The Quevenne Lactometer for specific gravity and Babcock Testor for the percent. of fat shall be used to determine the valuable constituents of the milk.

9th. Each cow will be credited with as many points as her product periods of lactation and gestation can reach on the following scale:

For every 20 days lactation ........................................ 1 point.
For every 10 days gestation .......................................... 1 point.
For every two ounces of solids, not fat, yielded in 24 hours .... 1 point.
For every ounce of butter-fat yielded in 24 hours .............. 24 points.

If Breeders’ Associations, or individual owners of pure bred cattle wish to offer similar prizes for their respective breeds, they will be accepted and the tests made under the above terms for all such entries of cows owned in North Carolina as may be exhibited at the State Fair.

SHEEP.

MAJ. JOHN M. CRENSHAW, DIRECTOR.

Exhibitors are required to have their stock ready in the pens for the Judges by 10 o'clock A.M. the second day of the Fair. This rule will be strictly enforced. See that your entry tags are properly made out and securely placed in a conspicuous place on the pens.

RULES GOVERNING JUDGES.

Judges on sheep are expressly instructed that it is their duty, in every case, to require from each exhibitor in lots of pure breeds, satisfactory evidence of purity of breeding, as claimed; and Judges, when awarding a premium in any such lots, will be understood to say by such award that (in their opinion) the animals receiving the premium are beyond a reasonable doubt, purely bred, as claimed.

They are further instructed that if they shall have good reason to believe that any exhibitor, by false entry or otherwise, attempts to deceive the Judges or the public, and obtain a premium by misrepresentation, they shall report the fact at once to the Superintendent of the Sheep Department, who shall immediately instruct the Judges that such exhibitor is henceforth excluded from competition at this Fair.

All ewes, three years old and over, shall have suckled this season.

All sheep offered for competition must be accompanied with an affidavit to the effect that they have been shorn since April 1, 1894, and the date of shearing must be given.

Flocks and pens of sheep must be owned by one individual or previously existing firm.

LONG WOOLS.

PRINTERS AND BINDERS,

And Blank Book Manufacturers,

RALEIGH, N. C.

Having purchased the latest improved presses, and added the best machinery to our book bindery, we are prepared to publish books in the best style of the art.
SPECIAL PREMIUMS OFFERED BY AMERICAN BERKSHIRE ASSOCIATION.

The American Berkshire Association offer the following special premiums to be competed for at the North Carolina State Fair of 1894, viz.: The first five or the second five volumes of the American Berkshire Association necessary to complete the set of the successful competitor and valued at five dollars per volume.

356. Best breeding pen of Berkshire registered in the American Berkshire Record, to consist of a boar and three sows over one year of age, owned by a resident of the State or province in which the Fair is held, the first five or second five volumes of the Berkshire Record, valued at twenty-five dollars.

357. Best breeding pen of Berkshire registered in the American Berkshire Record, to consist of a boar and three sows under one year of age, owned by a resident of the State or province in which the Fair is held, the first five or second five volumes of the Berkshire Record, valued at twenty-five dollars.

CONDITIONS: 1. That the boars and sows competing for the prizes specified above be recorded in the American Berkshire Record prior to the date of entry at the Fair and that a list of such entries be sent the Secretary of this Association.
2. That there shall not be less than two competitors for each of the prizes.
3. That no animals competing for the above prizes be allowed to show for said premiums at more than one State or Provincial Fair in 1894.

For further particulars address CHARLES F. MILLS,
Secretary American Berkshire Association,
Springfield, Illinois.

DEPARTMENT C.

POULTRY AND PET STOCK.

W. S. BARNES, DIRECTOR.

RULE 1.—The new American Standard of Perfection will be the guide of the Judges on all varieties on which premiums are offered.

RULE 2.—All birds competing for premiums must be strictly the property of the exhibitors. Any attempt to evade this rule in any particular will exclude all specimens entered by the offending party from competing, if discovered in time; if not, all premiums awarded such exhibitors shall be withheld.

RULE 3.—Cards showing entry number must be attached to each coop, as soon as birds are placed in position. and all entries must positively be in proper place by 10 o'clock A. M. October 16, 1894, unless unavoidably delayed. In that case they may be admitted at the discretion of the Director of the Poultry Department.

Entries positively close October 15, 1894.

RULE 4.—All birds to be shown in pairs.

No breeding-pen prizes.

The term pair—a male and female.

The term cock—a male bird hatched prior to October 15, 1893.

The term cockerel—a male bird hatched after October 15, 1893.

The term hen—a female bird hatched prior to October 15, 1893.

The term pullet—a female bird hatched after October 15, 1893.

RULE 5.—Errors in making entries will bar the specimens from competing unless corrected by the Secretary before the birds are placed in position. Exhibitors are particularly requested to be careful in making original entries correct, and thereby save time and trouble.

RULE 6.—Exhibitors need not accompany their birds. They can be sent direct to W. S. Barnes, Director of Poultry Department, State Fair. All specimens will be promptly reshipped to their owners at the close of the exhibition, or disposed of as they may direct. Express charges on all stock must be prepaid.

RULE 7.—Exhibitors who wish to enter fowls for competition and/or for sale also, can do so by sending tags written very plainly as follows:

For Sale.

<table>
<thead>
<tr>
<th>Variety</th>
<th>Age</th>
<th>Price</th>
</tr>
</thead>
</table>

Apply to Director Poultry Department.

Above tags to be given to Secretary at same time when entry tags are to be placed on coops, so that the corresponding number can be placed on the "For Sale" tag, thereby saving confusion.

RULE 8.—Adams and Southern Express Companies will return free of charge all exhibits on which full rates have been paid to Raleigh, N. C., provided they are accompanied by a card from the Secretary of Fair to the effect that ownership has not changed.

Direct all coops in care of the Director of Poultry Department, Fair Grounds, Raleigh, N. C.

NOTES.—All Standard breeds, not enumerated in following list will be awarded premiums same as others. Wheat, oats and corn chow for feed furnished free to all exhibitors. All exhibition coops will be removed from former location and placed inside the building thereby insuring the safety and health of the fowls and a more pleasant place for visitors to examine them in case of bad weather. Exhibitors wishing to furnish their own show coops can do so.

THE POULTRY CHUM.
THE POULTRY CHUM, now in its eleventh volume, is a wide-awake monthly, devoted exclusively to the interest of those raising poultry for profit and pleasure. It is published by a practical breeder of twenty-five years' experience in making poultry pay.

IT GIVES THE BEST METHODS
of mating for breeding, hatching and rearing, feeding and management of poultry for eggs and for Market, for profit and for the showroom. It is filled with the experience of those making the business a success.

IT TELLS HOW TO BUILD POULTRY HOUSES,
HOW TO CURE DISEASES,
HOW TO PRESERVE EGGS,
And has special articles on all breeds.

As an Advertising Medium THE POULTRY CHUM has no superior.
Even the Sample Copy which can be obtained by addressing THE POULTRY CHUM, DeKalb, Ill., will be worth a year's subscription to you. Subscription price 25 cents per year. HANDSOMELY ILLUSTRATED.

THE FANCIERS' REVIEW

Is too well known to need description. Its 16 large pages are replete with practical information for poultrymen. It has Pigeon and Kennel Departments. Its circulation (averaging 7,000 per month) makes it a desirable advertising medium. Write for rates. The subscription price of the REVIEW is 50 Cents for one year; 75 Cents for two years; $1.00 for three years, in advance. Three sample numbers are sent for 10 Cents.

500 QUESTIONS AND ANSWERS.

LOW-COST POULTRY HOUSES.

This is our latest book, and contains plans and specifications for poultry houses costing from $25 to $100. It is needless to say that this is just the book for the poultryman who contemplates building a poultry house or re-arranging the old one. The plans are specially made for this book. Get a copy! Price, 25 Cents.

PIGEON QUERIES.

A book of great practical value to everyone interested in pigeons—the amateur fancier particularly. It is written in the form of questions and answers, and is "chock full" of information on breeding, care and diseases of pigeons. Price, 25 Cents.

We also issue a little book for the man who keeps a cow (and most poultrymen are dairymen to that extent) entitled, "THE QUESTION BOX ON CATTLE AND THE DAIRY." These are questions and answers compiled from the Question Box of various Farmers' Institutes. It has the following chapters: Chapter I—Cattle; Their Care and Management. Chapter II—Feeding and Food Rations. Chapter III—Milk and Butter. Chapter IV—Cheese-making. Price, 25 Cents.

We also publish a 16-page dairy journal, "THE PRACTICAL DAIRYMAN;" subscription price, 50 cents a year. Three sample numbers, 10 cents. You might like to see it.

NOTICE.—We will send the "Fanciers' Review" one year and any one of the books above named for 65 Cents.

FIRST-CLASS PRINTING FOR POULTRYMEN.

By Sharp Butlerfield, Windsor, Ontario.

For six highest scoring birds owned by one exhibitor. One pair Light Brahmas.
Reasons For Using Dobbins' Electric Soap.

Best
From a sanitary point of view, because of its Absolute Purity.

Unscented,
Because nothing is used in its manufacture that must be Hidden or Disguised.

Cheapest
To use, because HARDER than ordinary soap, does not WASTE away and because it is not filled with ROSIN and CLAY as make-weights.

No Boiling of Clothes Needed,
Because being absolutely Pure, can do its own work.

Leaves Clothes Washed
With it WHITER and SWEETER than any other soap, because it contains no ADULTERATION to yellow them.

Washes Flannels
Without SHRINKING, bringing them out SOFT, WHITE and FLEECY, because it is free from ROSIN which hardens, yellows and mats together all woolen fibres, making them HARSH and COARSE.

It will not Injure
The FINEST LACE or the most DELICATE FABRIC, because all the ingredients used in its manufacture are HARMLESS.

Millions of Women
Use it because they have found it to be the BEST, most ECONOMICAL and absolutely unchanging in quality.

We wish to Caution the public against a lot of swindlers who go from door to door selling what they claim is Dobbins' Electric Soap. It is a fraud. Dobbins' Soaps are never sold in this way, nor have we any connection or consolidation with any other soap house, as they represent. $25 REWARD will be paid for the arrest and conviction of each man thus engaged in swindling the public.

Dobbins' Electric Soap is sold by all Grocers. Never by Peddlers from door to door.
By E. B. Harrington & Co., Kansas City, Mo.

By C. E. Richards, Cedar Rapids, Iowa.

SPECIAL GAME FOWL PREMIUMS.

A special Game Fowl exhibit, with special premiums, will be held under the auspices of the Wake County Game Fowl Association, the premiums being guaranteed by same, subject to the rules and regulations of the N. C. Agricultural Society. Competition is open to the world.

Exhibitors for “Largest and Best” exhibit in this class will be required, at time of making entry, to file an affidavit—sworn to before Notary Public or Clerk of the Court of county in which they reside, that all the fowls exhibited by them are their own property.

An entry fee of $5.00 will be charged for the “Largest and Best” exhibit. Fowls will be shown in pens—a pen being a cock and two hens.

White Pyle, or other breed of Whites.

The Mapes Manures

FOR POTATOES, CABBAGES,

CAULIFLOWERS, CELERY,

EARLY AND LATE TRUCK.

THE MAPES FERTILIZERS HEAD BOTH LISTS OF FERTILIZERS REPORTED IN YEAR 1893 BY THE CONNECTICUT EXPERIMENT STATION.

[From Connecticut Farm (Hartford) March 3, 1894.]

It will be difficult for the careful and unprejudiced reader of the Experiment Station reports not to be impressed with the remarkable high standard maintained by all the Mapes goods. In Part I, lately issued, of the Connecticut Station Report for 1893, the analysis of 61 "Nitrogenous Superphosphates" and 76 "special manures," show that Mapes heads the list in both classes, in being found to have the highest valuation, as figured by the Station as compared with the cost to the farmer.

[From the New England Homestead, March 8, 1894.]

As to the quality of their goods, the Mapes Formula and Peruvian Guano Co. analysis shows them to be unexcelled for farm, fruit or garden purposes. The analyses of 61 nitrogenous superphosphates and 76 special manures by the Connecticut State Experiment Station, show that Mapes heads the list in both classes in being found to have the **HIGHEST VALUATION COMPARED TO THE COST TO THE FARMER.**

**THE MAPES MANURES FOUND TO EQUAL OR EXCEED THEIR GUARANTEED STRENGTH IN EVERY CASE.**

Of the manufacturers whose goods were examined by the Rhode Island Experiment Station and reported on page 132 Bulletin No. 26, November, 1893, the Mapes Company was the only one of all those whose tests amounted to 12 or over, who were found to equal or exceed their guarantee in every case. The Mapes Company had a record of 100 per cent.; the next best record was 93 per cent.

Also No. 1. Peruvian Guano, standardized. **AMMONIA, 10 PER CENT.** Specially adapted for Truckers. Nothing equal to it for producing quick growth, tenderness in quality, etc. Send for circulars.

The Mapes Formula and Peruvian Guano Co.,

143 Liberty St., New York.

DEPARTMENT L.

EDUCATIONAL.

Prof. J. B. BURWELL, Director.

Competition for premiums in this department is confined to North Carolina.

Exhibits by schools must be exclusively the work of pupils (except collections of natural specimens) actually attending the school, and the work must have been done since June, 1891.

Exhibits by female schools may include art work, fancy work, penmanship, map drawing, culinary work, collections of geological, mineralogical, zoological and botanical specimens, plain and fancy sewing, by hand or machine, etc. Articles in such exhibit cannot compete for premiums offered in any other department, but may compete for one or more offered in this department.

The Female Department of a mixed school may compete for premiums in the name of the school to which they belong.

WORK OF SCHOOLS.

2nd Prem., handsome Medal.

The premium piano is offered through Ludden & Bates' Southern Music House, Savannah, Ga., with branch house at Raleigh. It is style "J" of the Sterling Piano Co.'s make; 7½ octaves, A to C. Double-veneered case, beautifully finished; combination and solid panels elaborately engraved or carved; swinging music desk; modern trusses; handsomely carved pilasters; overstrung scale; three strings; ivory keys; repeating action; continuous hinges on fall and desk; nickel-plated rail and full iron frame; three medals. (Length, 5 feet 1 inch; height, 4 feet 5 inches; width, 2 feet 2 inches. Walnut, mahogany or oak case. Price, $325.

The premium medal is a large gold piece of high intrinsic and artistic value, given by Mr. H. Mahler, the well known Raleigh jeweller. The issuance of the medal from this house guarantees its rich workmanship and worth.

The Premium Dictionary is given by Mr. Wayne Allcott, State Agent, Raleigh. It is the "Standard," issued by Funk & Wagnalls. It contains 2,200 quarto pages, nearly 5,000 illustrations and nearly 300,000 words, which is 75,000 more words than is contained in any other dictionary of the language. It is a complete dictionary and encyclopedia combined. The premium volume will be bound in full Russia and handsomely finished.

1302. For best general display by any male school. One thousand school catalogues, given by Messrs. Edwards & Broughton, the Printers, Publishers and Book Binders of Raleigh.

1304. Display of art work by school. Diploma.

1309. Best general display work by school. Medal.

1310. Best display of specimens of geology, mineralogy, zoology and botany, by school. Gold Medal.

1311. General display of graded school work by pupils under ten years of age. Diploma.

1312. Display of maps by pupils under ten years of age. Diploma.

1315. Best specimen of penmanship by any boy or girl under fourteen years of age. Copy first two verses of First Psalm. Diploma.

1316. Best specimen of penmanship by professional. Diploma.

1317. Best specimen of ornamental penmanship by professional. Diploma.

1318. Display of penmanship by professional. Medal.

1319. Best plan for country school house of one room. Diploma.

1320. Best plan for village school house of two rooms. Diploma.

1321. Best map of North Carolina drawn by a youth under sixteen, a pupil of any public school. $5 00.

1322. Best county map drawn by a youth under sixteen, a pupil of any public school in the county. 5 00.

THE PUBLIC ROAD QUESTION IN NORTH CAROLINA.

It has been well said that "Every member of society is interested in the public road. At birth, at death, and at all intermediate points during life it is used, to a greater or less degree, by or for every individual member of society. It carries the doctor to the bedside of the sick, the minister to administer consolation to the dying, friends to the house of mourning, and the dead to their graves. It brings purchaser and consumer together. It is the avenue alike of pleasure and of traffic. The farmer seeking his market, the commercial traveller looking for customers, the millionaire in search of enjoyment with his coach-and-four, the wheelman in the pursuit of health, the few seeking pleasure and profit on wheels, and the many in like pursuits on foot—all are interested in the public roads. And yet, direct and immediate as these interests are, we are content to follow the methods of half a century or more ago, to submit to inconvenience, to discomfort, and to the immense waste of money and patience."

Nearly all the freight that is carried on the railroads has to be brought to them over some kind of a road: all the freight that is brought into the State by the rivers roads has to be distributed to the citizens over some kind of a road. The value of farm lands, the value of mill privileges, the value of factory output, all depend largely upon means of transportation, that is to say, on local roads.

The greatest obstacle in the way of the move for better roads among the poorer classes, who are always loth to increase the "burden of taxation," is the item of cost; and this will continue to be the case until the people cease to realize the fact that bad roads cost more than good roads; that the cost is immense and that it falls almost wholly on the farmer.

Mecklenburg Iron Works.

JOHN WILKES, Manager, Charlotte, N. C.,
Who will be pleased to give information and to quote prices upon application.
At just the time of the farmer’s leisure, just the season when the farmer should transport his product to the market, he is shut up to isolation, sometimes for weeks, and the work of transportation is delayed to the time of planting, greatly to his loss.

COST OF WAGON TRANSPORTATION.

"It is apparent that but few people comprehend the cost of transportation by horses and wagons, or realize the amount of money annually wasted by the ill condition of the roadways."

The following table "shows from actual observation the cost of moving a load of one ton a distance of one mile on level roadways with different pavements in the usual condition in which they are maintained. The excessive amount of these charges is seen, when it is remembered that the same goods using the roadways are now carried by the railroads at an average cost of 10 of a cent" per ton per mile:

Cost of Transportation by Horses and Wagons, Hauling One Ton a Distance of One Mile on Different Road-coverings.

<table>

</tr>
</tbody>
</table>

It will be seen from the above table that in hauling a load of one ton over one mile of level road, it costs more than twice as much to haul this load over the best dry dirt road, about five times as much to haul it over a moderately muddy dirt road, and eight times as much on a dry, deep-sandy road, as it does to haul the same load the same distance on the best dry, broken-stone or macadamized road. These facts, and others given below will serve to show that better roads are needed in every section of the State, and that our bad roads in every section are a heavy and expensive burden.

OTHER ITEMS IN THE COST OF BAD ROADS.

In estimating further the cost of bad roads, we should take into consideration the loss of time by horses and men, the cost of maintaining the same during such lost time, the injuries and the wear and tear to the horses, vehicles and harness caused by the bad roads. We should also take into consideration the small loads that must be hauled over these roads, frequently not one-fourth of a full load, and we must bear in mind the fact that during the winter months, when ordinary farm work cannot be carried on, is the time when wagons and teams should be mostly used on the roads in going back and forth to markets, etc., but this is just the season when many of the public highways become well-nigh impassable, even with light loads. It must also be remembered that bad roads keep down the selling and taxable value of lands and all other real estate, while good roads raise these values, as will be brought out more clearly below.

We have now in the State, in round numbers, 200,000 horses and mules. We may deduct from this number 50,000 which, in the cities and towns, can be used during the entire year, and there remain 210,000 horses and mules which, for our present purpose, may be designated country horses and mules.

We may credit 134,000 of these to the fifty-six middle and western counties, and 76,000 to the forty eastern counties. These 134,000 country horses and mules credited to the middle and western counties cannot be used during four weeks of the year on account of bad roads. The cost of feeding them per day, at twenty cents each, is $26,800, which for the four weeks amounts to $750,000. Now let us add to this the item of the loss of time for these animals. Putting this at twenty-five cents per day (twenty-four days), we see another source of loss amounting to $84,000. These two items give us a total of $1,554,400 per annum which may be charged against the impassable public roads. Let us add to this the cost of the following items which will amount in the aggregate to certainly not less than $500,000:
farmers sustain by not being able to carry farm produce, tobacco, cotton, etc., to markets at times when prices are highest; and the result presents at a reasonable estimate, a total loss of more than $1,600,000 per annum to be charged against excessively bad public roads in North Carolina during these four weeks.

We may suppose that one man was employed in the management of each pair of these 134,000 horses and 1 mules of the midland and western counties. Of these 67,000 teamsters we may fairly suppose that one-half of their time during the four weeks lost by the horses and mules was profitably employed in other ways about the farms; but we may also fairly consider the other half of their time as lost on account of bad roads. Valuing the services of these men at fifty cents per day and charging one-half of this as lost, owing to bad roads, we have 67,000 men at twenty-five cents, equal to $16,750 per day; and for four weeks $602,000. While this is believed to be a real loss due to bad roads it will not be included in the final estimates of the total

"THE FARMER IS SHUT UP AND THE WORK OF TRANSPORTATION IS DELAYED, GREATLY TO HIS LOSS."

loss, because there is a reasonable doubt as to the amount of actual loss from this source.

But then there is another large item that must be taken into consideration. We have estimated that this $1,600,000 per annum is lost during four weeks when the roads are so bad as to practically prevent all hauling. But it must be remembered that even when the dirt road is in good average condition, the loads hauled are not more than one-third those hauled on good Macadam highways. The average load for one horse on a macadamized country road in France is said to be two or three tons; and on the paved streets of a French city one horse oft n pulls three to five tons; whereas, taken month in and month out, the load for one horse on the average American dirt road is less than half a ton. It can therefore be safely claimed that if we had good macadamized roads, the hauling we now do in two months could be done in less than half the time.
It is probably safe to estimate that all the hauling over the public roads during the year would require the constant employment of the entire 210,000 horses and mules and 105,000 teamsters and wagons during at least two months, with the roads in their present average condition, and would require their employment during one month on good Macadam roads. Here, then, is an important item of loss on account of bad roads, i.e., the services and cost of maintenance of these horses and mules, teamsters, wagons and harness during one month. In this case it is manifestly proper to include in the estimate the wages of teamsters, who spend all of their time with the teams and are paid full wages, while the teams are pulling half loads, and hence losing half of the time. Valuing the services of these 210,000 horses and mules at twenty-five cents per day each (twenty-four days), we have an item of $5,250,000; estimating their feed per day at twenty cents each, twenty-eight days, we have another item of $1,176,000; and these combined show a loss of $2,856,000 for the month. The pay of 105,000 teamsters, estimated at fifty cents per day each, gives an item of $52,500 per day and $1,260,000 for the four weeks. The wear and tear on the 105,000 wagons and harness, if placed at ten cents per day while in constant use, gives an item of $10,500 per day and $252,000 for the four weeks. Add these several items and we have a sum of $8,948,000 annually lost to the people of the State by having poorly laid out and constructed dirt roads instead of good Macadam roads, not including the loss during the four weeks when the roads are impassable. That this is an actual loss will be seen more clearly when we understand that the amount of hauling which could be done at a profit will greatly increase as we make good roads, and thus reduce the cost of wagon transportation.

ROAD MAKING IN RALEIGH TOWNSHIP.

But there is yet another item which must be included in this general estimate before the grand total is reached. In the beginning of this discussion we left out of consideration fifty thousand of the horses and mules in the State as being approximately the number about the cities and towns which can be used throughout the entire year. The suburban roads and many of the streets of these towns, however, are kept in much poorer condition that we may safely estimate that if these streets and suburban roads were properly macadamized, these 50,000 horses and mules and their drivers could do twice the work they now do, or one-half of them could easily do all the hauling now done, and the other half might thus be easily dispensed with, and the cost of horse feed, wagons, harness and teamsters saved. Let us see what this saving would amount to if the latter plan were adopted. It costs to feed these 25,000 horses and mules, at twenty-five cents (city prices) per day each for the year, in round numbers, the sum of $2,281,000; and for these horses 12,500 teamsters are required, who, at fifty cents per day, cost for 300 days $1,875,000; and 12,500 wagons and harness at ten cents per day (for 300 days), $375,000; making a total of about $4,531,000 per annum from these sources, which may fairly be charged against our inferior roads and streets.

If we now estimate that there are in the State 220,000 citizens who are bound to work on the public roads four days of each year, and value their services at fifty cents per day, we have the sum of $440,000, which, whether expended in money or muscle, may be considered an annual tax for public roads. But in spite of this large

THE PUBLIC ROAD QUESTION.
expenditure, year after year and decade after decade, we have not in the State to-day a long public highway worthy of the name.

Let us now bring together the result of these several estimates:

Loss on account of the cost of feeding, and loss of time by the 134,000 country horses and mules in the middle and western counties, during four weeks of impassable roads, etc ....................................................................... $ 1,600,000

Loss, on account of bad roads, of the time and expenses of maintenance of 210,000 country horses and mules, 105,000 wagons and harness, and wages of 105,000 teamsters, during one month ........................................................................ 3,948,000

Loss, on account of bad roads, of the services and expense of feeding 25,000 town horses, and services of 12,500 teamsters, and wear and tear on 12,500 wagons and harness, all of which could be saved by having good roads and streets ........................................................................... 4,531,000

Wasted in working public roads in taxes and labor .................................................................................. 440,000

Total ............................................................................................................................................ $10,519,000

The aggregate of these several items gives a grand total of over ten million dollars, which sum the people of the State lose annually on account of bad roads, and which sum might be saved annually to the State by a system of good macadamized roads.

We are aware that many will question these astonishing figures, but they are careful estimates, not random guesses. And while admitting that there are many sources of possible error, we are satisfied that whoever examines the estimates candidly

BICYCLE RIDING ON RALEIGH TOWNSHIP ROADS.

will be profoundly impressed with the fact that on account of these bad roads the people of North Carolina are suffering yearly enormous losses without any compensating return, and of the magnitude of which they seem to be hardly conscious; and it must be remembered that every year, as trade increases, and with it the number of horses and wagons and teamsters, we must use these bad roads more and more, and the losses they entail thus increase annually. These losses are, in an important sense, equivalent to an annual tax on the people of the State of ten million dollars, paid largely by the farmers who own the stock and wagons, but paid also in part by every man, woman and child in the State.

And what do we get in return for this large drain upon the wealth of our people? A system of dirt roads, sandy in one region and clayey in another, which, as compared with macadamized highways, retard or prevent travel; diminish or prevent investment of capital; keep intelligent settlers away; retard and greatly increase the expense of all transportation and exchange of commodities between farms and markets; decrease the profits of farming; interfere in the country with proper attendance at the schools and at churches; prevent proper social intercourse among people in the country, and between those living in the country and those in towns; make young people and old people dissatisfied with living in the country and anxious to move to towns and cities, where they can walk, ride or drive with some degree of
comfort; keep down the value of all lands and other real estate; prevent the inauguration of many mining, manufacturing and other enterprises, by making wagon transportation too expensive.

And how long will this continue to be the case? What are we waiting for? How long will it be before the intelligent men of the State join earnestly in this move for better roads? How long will it be before our people, instead of asking for a "reduction of the burdens of taxation," already exceptionally light, will come to understand that it will pay to expend a considerably larger portion of our labor and money in the development of such internal improvements as the construction of better public roads? How long will it be before we all come to realize the imperative need of better roads sufficiently to determine to have them, whatever sacrifice may be necessary in order to pay for them? If we wait until the country increases in wealth we may expect to "make haste slowly," for certain it is that bad roads tend to perpetuate our poverty, and as equally certain it is that good roads tend to increase the wealth and prosperity of the people.

It is of course impossible to give accurately the total mileage of public roads in the State owing to the fact that the majority of these roads have never been carefully surveyed and measured. But an approximate estimate based upon the best maps obtainable and extended observations in many counties shows a total for the State of (1) about 10,000 miles of prominent public roads radiating from the county seats to the borders of the counties, and (2) about 10,000 miles of cross roads leading through various portions of the several counties. (3) In addition to these there is a considerable mileage of roads—probably 20,000 miles in all, some of them public and some private—of comparatively little importance, which are not included in this estimate. This would give an average of about 240 miles of prominent public roads for each county in the State, i.e., 100 miles of roads leading from the county seat out through the country, and 100 miles of cross-roads; and an average of 200 miles of lesser public and private roads for each county. In many of the larger counties the mileage is greater, and in many of the smaller counties it is less than this average.

THE COST OF GOOD ROADS.

We have endeavored to show above approximately how much our present system of bad roads costs the people of the State; and in stating this at $10,000,000 per annum we believe that this estimate is below rather than above the actual loss. It must be apparent to every one that at any reasonable cost per mile, the annual expenditure of a small portion of this sum in road improvement would give us a system of public highways, which in a short time would much more than pay for themselves.
Of course the cost will depend largely upon the kind of road to be made, but it may as well be clearly understood that the construction of any public highway which is to be worthy of the name, and which is to be of any real and lasting benefit to the communities through which it passes, is an expensive undertaking. The re-surveying, grading, proper drainage and other work in improving a good dirt road, may cost under different conditions from $100 to $500 per mile. Macadamizing these dirt roads, already graded and drained, with different widths of road, different thicknesses of broken stone and other varying conditions, may cost from $1,000 to $10,000 per mile.

Particulars of cost and method of construction are exhaustively given in "Bulletin No. 4," which may be had on application to J. A. Holmes, Chapel Hill, N. C.

In Raleigh Township, in Wake County, one of the larger and wealthier counties, Macadam roads are being constructed under the operations of a law which provides for the working of county convicts on the highways.

This work is now done from the corporate limits of the city of Raleigh to the township boundary line. About eight miles of road have been macadamized and the work is being gradually extended. It has given the greatest satisfaction, and is proving to be one of the most profitable and progressive steps ever taken. The advantages are seen by adjoining townships and the "Good Road" fever is spreading, slowly perhaps, but certainly and effectively; and some of those townships will ask the next Legislature for laws by which taxes may be levied upon themselves for the purpose of good road construction. Wherever these roads have been built, in Wake, Mecklenburg, or other localities, there has been always an increase in value of property through which they run. They have made stable values that would have otherwise fluctuated. That it would pay the people of any county to macadamize, or by some equally good method improve the main roads leading from the county seats to the county boundaries, even though the cost should be large and that such a procedure would raise the selling value of farming lands and other real estate in the county ten to fifty per cent., no one who has studied the question can doubt.
The development of the production of cotton in the United States within a single century from insignificant proportions to 9,000,000 bales a year, considered in all its relations to our industrial progress, is without a parallel in history. First of all, it is a sufficient answer to the charge so often made against the southern part of the United States that the people are without enterprise or mechanical ingenuity. It may not be going too far to assert that everything the northern part of the Union has accomplished, put together has not affected the welfare of so many people in the world, or reached so far in its effects, as what has been done in the cotton industry in the South. It may be answered: “The South alone is adapted to the production of cotton; if it would only grow in the North, a different showing might have been made by that section.” But cotton grows in India, in Egypt, in China, and in South America, and a people cannot be without enterprise who, in competition with such a widespread cotton area,—in many parts of which the plant has been cultivated for centuries upon centuries,—in less than one hundred years are able to show a production far exceeding that of all the rest of the world.

In 1830 the cotton crop of the United States amounted to about 100,000 bales; in 1892 the yield reached nearly 1,000,000 bales. During the greater part of the interval the price has been about ten to twelve cents per pound, but it has been as low as five cents, and as high as twenty-seven cents, leaving out of account the years of the war (1861 to 1865), when the South practically stopped producing cotton. Estimating 500 pounds to the bale and the price at ten cents per pound, the crop of 1820 would have been worth, in round numbers, $20,000,000. On the same basis the crop of 1892 would have a value of $450,000,000. This great increase in production has been made in a section to which there has been no such constant tide of immigration as has been experienced by other parts of the United States and for this reason alone the result reflects great credit upon the people who have accomplished it.
This great achievement is the result of three things combined, namely: (1) the enterprise and energy of the people; (2) the invention of the cotton-gin; and (3) the designing of buildings and mechanical appliances by which the gin may be economically operated.

The cost of ginning 1,500 pounds of seed cotton and of baling the lint is today only about one-fifth of the cost in 1870. The plantation gin-house and screw have been
supplanted almost entirely by the modern ginneries, which are centrally located and are manufacturing-plants rather than plantation equipm ents. Many of them are incorporated as parts of plants in which the lint is separated from the seed and baled, the oil is taken from the seed, and the cake is ground into meal to be used as a fertilizer or cattle-feed, as the markets may demand.

In almost every community in the South there may now be found a manufacturing-plant known as a gin-oil-mill, and fertilizer-works. These gin cotton-crush cotton-seed for cotton-seed oil, and buying some of the ingredients which are used with cotton-seed meal, mix commercial fertilizers. Out of this development has come the further business of fattening cattle on cotton-seed hulls and cotton-seed meal. Recently a large business has been developed by these factories in preparing a stock food made of cotton-seed hulls and meal, mixed. Before the war the seed were a waste product; ten years ago the hulls were used for fuel only. Last year cotton-seed sold at $20 per ton and the hulls at from $3 to $5 per ton.

The most expensive item now left in the production of cotton is the cost of picking the fiber from the stalks in the field. This opportunity for the exercise of ingenuity has not been neglected during the last few years. Numerous patents have been issued for cotton-harvesters, many of which are absolutely without merit, but some of which are marvelously ingenious. One that seems, so far, to have come nearest to doing commercially successful work is that of Mr. C. T. Mason, of South Carolina. The extent of the incentive for the solution of this problem may be judged from the following estimate:

The price now paid for picking cotton is from 50 to 75 cents per hundred pounds. About 1,500 pounds of seed and cotton are required to make a bale of lint weighing 500 pounds. The cost of picking 1,500 pounds of cotton at, say 60 cents per hundred, would be $9. Therefore to pick ten million bales, which limit it is assumed will be reached in the near future, would cost, at present prices $90,000,000. It is claimed by the cotton-harvester inventors that a machine can be made which with one man and one laborer can pick or gather 4,000 pounds of seed cotton per day, whereas the picking of 150 to 200 pounds by hand is a good day's work.

The following table will give some idea of the increase in production of cotton every tenth year, and of the value of each crop included in the list since 1820, expressed in round numbers. Values are all based on the rate of 10 cents per pound and an average weight per bale of 500 pounds.

As has been stated already, the seed were before the war a waste product except where used in the Southeast to a limited extent as a fertilizer. Since the war the cotton-seed oil business has been developed to such an extent that in the current sea-

A COTTON PLATFORM AT RALEIGH.

son about 1,500,000 tons of seed will be crushed for oil and other products. Out of these seed come the following products, against which their values are shown:

- 50,000,000 gallons cotton oil at $0.50... $25,000,000
- 700,000 tons hulls at 4.00... $2,800,000
- 500,000 tons meal at 20.00... $10,000,000
- 50,000,000 pounds short lint at .03... $1,500,000

Total... $39,300,000

This much comes out of what was in the days of slavery almost entirely wasted. It is not alone in the utilization of cotton-seed that the revived mechanical genius of the South has been exhibited, but in the manufacture of cotton into yarns and cloth as well. In a region of country reaching along the foothills of the mountains from Lynchburg, Virginia, to Atlanta, Georgia, almost every town has one or more cotton-factories, built since the war. Many factories have been built on the water-powers in the country, and towns have grown up around them. At first only coarse goods were attempted; then finer and finer products, by degrees. While as yet no very fine goods have been produced, enough has been done to prove that as capital accumulates and the owners acquire knowledge of the business and the operatives improve in skill, there is no more limit to the quality of the goods that may be made in North Carolina, than those that may be made about Lowell, Massachusetts, or Manchester, England.
