THE WEST SHORE RAILROAD

Is one of the most popular routes for business and pleasure travel leading to and from New York City, as well as being the most substantially built and elegantly equipped double track line through central New York State. This superbly built railroad has been justly named the “Picturesque Route,” traversing as it does the west shore of the historic and world-famed Hudson River, skirting the foot-hills of the Catskill Mountains, famous in Washington Irving’s “Rip Van Winkle,” and passing through the beautiful Mohawk Valley. By this route three express trains are run daily, in each direction, between New York, Albany, Utica, Syracuse, Rochester, Buffalo, Niagara Falls, Toronto, Detroit, Chicago, St. Louis, and the West. Palace sleeping-cars are attached to these trains, and run through without change between the points named. Sleeping-cars, New York to Toronto without change, are run exclusively by the West Shore. The West Shore, in connection with the Fitchburg Railroad, is also the shortest line between Boston and Chicago. It is the only all-rail line to the Catskill Mountains, and the only line by which drawing-room cars are run through to the heart of the Catskills. During the season of summer travel fast Catskill Mountain express trains are scheduled. Attached to these trains are drawing-room cars, which run through without change between Philadelphia, Jersey City, New York, and Catskill Mountains. Saratoga Limited express trains are also run by the West Shore during the summer season, and, have drawing-room cars attached which run through without change between Washington, Baltimore, Philadelphia, Long Branch, Jersey City, New York, and Saratoga. Buffet smoking-cars, with revolving chairs, are a special feature of the splendid service on the West Shore. Drawing-room cars also run between Saratoga and Niagara Falls. The West Shore also runs special trains between New York and New Paltz during the summer season for the accommodation of travel to and from Lake Mohonk, Minnewaska, Shawangunk, and all points in the Wallkill Valley. The connection in Jersey City station with the Pennsylvania Railroad will be appreciated by travelers to and from the South and the resorts of central New York State, as the long transfer through New York is thereby avoided. Passengers and baggage from Brooklyn are taken direct from the foot of Fulton Street by Annex boat to Jersey City stations. Tickets via West Shore can be purchased at ticket-offices of all connecting lines, and they are sold and baggage checked through to destination from all stations of the West Shore Railroad.

THE NEW VESTIBULED LIMITED.

The Handsomest and Fastest Train in America is the magnificent new
Vestibuled Limited, composed of a Buffet, Smoking and Library Car, two
Parlor Cars, two Sleeping Cars and a Dining Car, between New York and Chicago
and St. Louis, over the great Four-Track New York Central and Hudson River
Railroad, and the Lake Shore Railroad. A Library, Bath-Room, Barber
Shop and Steam Heat are the novel features.

THE NIAGARA FALLS ROUTE
Is over the New York Central and Hudson River Railroad, in connection with
the Michigan Central Railroad, crossing Niagara River on the celebrated Cantilever
Bridge within a few hundred yards of the Falls. All trains stop ten minutes
at Falls View Station at the verge of the great cataract and in full view of the
rapids just above the Falls.

All Trains arrive at and depart from the Grand Central Station, on 42d Street,
DURHAM, N. C.

Durham, the capital of the county of the same name, is a city on the line of the North Carolina Division of the Richmond and Danville Railroad, twenty-six miles west of Raleigh, the State's capital, and fifty-five miles east of Greensboro, the junction of this division with the Piedmont Air-Line and the Cape Fear and Yadkin Valley Railroad.

Durham invites Capitalists to investigate its growth, resources and opportunities.

Durham is a city of the New South, an integral part of the United States of America, and as such her motto is "one country, one flag, one destiny."

Durham is the centre of the "Golden Belt," the region producing the finest tobacco in the world.

Durham exports her bright leaf tobacco to all the principal marts of Europe, and her smoking tobacco and cigarettes to every nation under the sun.

(Note.—In all the tobacco factories the increase, from December 31st, 1885, up to September 30th, 1886, exceeded 75 per cent.)

RAILROADS.

In addition to the Richmond and Danville road (which gives Durham outlets to all market), and to the road twelve miles long which connects the city with Chapel Hill,—the seat of the University of North Carolina,—there will soon be a road to Lynchburg, Va., by way of Roxboro, N. C., and South Boston Va., which will also be extended south to Sanford, N. C. where it will connect with the Cape Fear and Yadkin Valley and the Raleigh and Augusta Roads. This will give a competing line to all points and open up a rich tobacco country. Communities on this line have subscribed $700,000, of which Durham gave $100,000.

THIS DIRECTORY
WILL BE ISSUED ANNUALLY, OR AS THE DEMAND REQUIRES. SUPPORT NO OTHER, FOR WE WILL ALWAYS GIVE A VALUABLE WORK.

Respectfully,
E. F. TURNER & Co.,
217 Elm Street, Yonkers, N. Y.
We especially call the attention of our readers to the following liberal patrons of our work who have assisted us with much valuable information, without which we would consider our book incomplete, and to show our appreciation of the same we make the following brief mention:

THE BLACKWELL DURHAM CO-OPERATIVE TOBACCO COMPANY IS THE LARGEST WORKS OF ITS KIND IN THE WORLD.

The "Durham Bull" is the genius of our young city. It has found its way into every principal market on the globe and it is smoked by every nation; indeed we may say it is smoked in every language in the known world. This mammoth enterprise started from a very small beginning some twenty years ago, when Durham was a water station on the North Carolina railroad. Perseverance and judicious management has brought it through all these years to its present immensity. Good work always tells.

Without going into a detailed account of the origin and rapid growth of the "Bull" as a factory of granulated tobacco—which would fill a volume—we will, in a brief way, give our readers some idea of it now and its present capacity, which is about 8,000,000 pounds a year.

The factory building is one of architectural beauty, built of brick and granite, four stories in height, with a frontage of 350 feet, and 160 in length, with a capacity of 250,000 pounds per day. Do you catch the idea of its immensity? This is a Durham enterprise of which the whole State feels proud. Hundreds of hands are employed daily, and it has paid in the last ten years for labor alone, $100,551.51, as near as a casual observer can observe.

The factory proper, with its adjuncts, cover over twenty acres of ground, and it is supplied with all of its own appurtenances, in every branch, for the speedy execution of all work connected with the business. It is a veritable hive of varied industries, all with one object in view—preparing the "Bull" for the smoker's use. The company use at least 110,000 yards of cloth per month for making the tobacco sacks, or a total of 1,400,000 yards per annum.

During the past decade the Blackwell Durham Tobacco Co. has sent out something over 34,490,177 pounds of manufactured tobacco, which has gone all over the world and filled the pipes of all nations. In the same length of time it has paid in taxes to the United States government a sum that will astonish you—$3,813,930.89. This shows that this factory has been, and is now, one of the most important factories in the industry and progress of Durham. Most assuredly it does. The "Bull" carried with it the name of Durham to every inhabitable land, both in the new and the old world.
Nowhere on the habitable globe is better tobacco produced than right here around Durham; and nowhere in America—or out of America—is it manufactured with more success, or gives more general satisfaction, than by the proprietors of the new famous "Durham Bull."

THE GUIDING SPIRIT.

In every great and successful enterprise there is a "power behind the throne"—a moving genius, a directing spirit. In the workings of the enterprise, and President of the Company, is a North Carolinian—one whom all North Carolinians delight to honor—who is a typical representative of the pluck and energy that is to-day regenerating and disenthralling the South from her "Rip Van Winkle" sleep and pushing her forward in the grand march of progress.

As the great king Artaxerxes was traveling through the wide realms of Persia, a certain man, named Mises, presented him with a pomegranate of a wonderful bigness, which the king admiring demanded out of what paradise he had gotten it. Mises answered that he had gathered it from his own garden and cultivation. The king was exceedingly pleased with the present, and gracing Mises with royal gifts in return, swore by the sun, "That the same man with like diligence and care might as well of a little city make a great one."

MR. JULIAN S. CARR

Is to-day doing a great work for Durham; doing a lion's share in making of Durham a great city. His diligence and care in business, with a generous heart filled with Christian grace, is the secret of his great success.

From his entrance in the firm owning the "Durham Bull," a foundation was laid for the largest smoking tobacco factory in the world. A policy was mapped out which faithful, consistent execution has enabled the firm to achieve its present great success. Mr. Carr has demonstrated his ability not only to design but to execute, and it is these characteristics that aid in bearing a man on to the realm of success.

Had it not been for the enterprise displayed by such leaders in the tobacco manufacturing industry as Mr. Carr and his associates, it is more than likely that the unnatural state of affairs that has so long characterized cotton manufacture would have had, in a great measure, its counterpart in tobacco; that is to say, the bulk of it would probably have been manufactured at the North.
Mr. Carr, with his happy and interesting family, now occupy their new and beautiful residence, "Summerset Villa," completed at a cost of about $120,000. It is one of the finest residences in the South. The accompanying illustration gives you but a faint conception of its beauty and finish. Thoroughly convenient arrangements; supplied with all the modern improvements to make it a royal dwelling place. No expense was spared in the materials used.

Mr. Carr has a warm place in his heart for the old ex-Conferate soldier. It is not mere sympathetic words—it is deeds. His generosity and liberality are coextensive with his reputation, and his open-hearted charity must bring him the sweetest benediction that ever poured its solace upon the sorrow-swept heart of humanity. He is among

THE FIRST IN ALL GOOD WORKS,

and especially enterprises that look to the advancement of Durham—a town that is as dear to him as "the apple of the eye." He has been called to fill many important positions, and in every situation he has acted so well his part as to win commendation and
increase the esteem of his fellow-citizens. A devout, consistent and energetic member of the Methodist church, he has inspired, by his christian bearing, a sentiment of warm regard that ripens with intercourse into a strong affection. Men love him for his virtues, for his kindly disposition, for his wide sympathies, and for his chivalrous and exalted sentiments. Such a man is an untold blessing in any community. Durham is proud of such a whole-souled citizen. The State is proud of him. The South glories in his grand achievements. Town, State and section honor him, and lay the chaplet of their plaudits at his feet. His career and example are illustrious precepts for the rising generation. Long live Julian S. Carr and the great enterprise of which he is the honored head!

HOTEL CLAIBORN.

The Hotel Claiborn under the charge of A. B. Sites, (who has always enjoyed the reputation of a first class hotel man,) is certainly worthy of great note. It is located in the midst of a thriving business centre, convenient to all the principal places, and within easy access from all parts of the city. The building is substantially constructed, the interior arrangements are perfect and including all the most modern improvements for the convenience, comfort and safety of guests. This Hotel holds a leading position among the lovers of good living, the cuisine being second to none in the city.

J. SOUTHGATE & SON.

J. Southgate & Son, represent more than twenty-five of the best English and American companies. Nearly $500,000,000 capital and assets. Strongest company agency in the South. The largest in the state. Mr. J. Southgate has been located in Durham some thirteen years. He conducts his business upon the strictest principles of commercial integrity, and has won an excellent reputation as an honorable, energetic and thoroughly reliable business man, and is very popular in leading social and commercial circles.

The firm of J. Southgate & Son has been wisely managed and has had an unusually prosperous career, its policies reflecting great credit upon the firm. They rank among the best companies, most influential business men, and the best proof of their abilities is the splendid record which they have made. They have built up a large business, and an ever increasing reputation for affording absolute security, coupled with the most honorable and liberal treatment of policy holders. They have transacted a large business and Mr. Southgate is to be congratulated upon the large measure of success which has attended his efforts. He is an experienced and prudent underwriter, and has every facility for writing risks.
J. B. Whitaker was born in Goldsboro, N. C., September 3, 1851. The war interfered somewhat with his education. Entered the printing office of his father, J. B. Whitaker Sr., and soon manifested special fitness for this avocation. Became a swift compositor and was acknowledged one of the fastest and most accurate composers of type in the State. Indeed when about 15 years of age he publicly issued a challenge for a contest with any printer in the State not over 18 years of age, and this challenge was not accepted. At 19 years of age he was employed as a journeyman on the Wilmington Daily Journal, published by Englehard & Price, and soon won the distinction of being the swiftest compositor in that office. When a youth he published a humorous paper which had quite a run. Has occupied the position of local reporter of the Goldsboro News and local editor of the Goldsboro Messenger. At one time he was owner and editor of an advertising sheet, called the Weekly Advertiser. Was married April 25th, 1871, to Miss Sallie A. Jones of Goldsboro.

Mr. Whitaker held in Goldsboro the positions Asst. Postmaster and Town Clerk, although a Democrat. A very high compliment attesting his merits, as in this case politics were ignored, and Republicans voted for him from higher motives than those which usually actuated the average voter. In these positions he acquitted himself with credit to himself and acceptability to his constituents. Moved to Durham in Feb., 1877, to take charge of the job printing office of Blackwell’s Durham Tobacco Co. Held that position until June, 1879, when he purchased the job printing office of D. W. Whitaker, and built up a successful business. His office was almost entirely destroyed by the great fire of 1880. But he immediately purchased a new outfit, and soon revived his business. It is generally conceded that his bronze printing stands in the front rank of excellence. Was a delegate to the first two Democratic county conventions held in Durham county. He took an active part, (as he does in all other high and commendable movements) in the State prohibition campaign, which was defeated by an amalgamated combination of Republicans, Liberals and Anti-prohibitionists. This cause, though retarded, will sooner or later triumph as all truth must. It may be slow and tedious but sure. Mr. Whitaker, be it said to his everlasting honor, is an enthusiastic coadjutor in the temperance movement. He talks it, he votes it, and he watches it. He is a man of strong convictions and lives true to them. The acts and aims of his life bear the impress of lofty motives, of unselfish and unswerving devotion to the interests of his fellow-man. In whatever position he has been called to act, whether social, political or religious, he has kept an eye single to
the glory of God and the elevation of man. His high-toned christian character, gentlemanly deportment and familiarity with the wants of the people, pre-eminently fit him for the leadership among men. He is a strong advocate of education and was one of the most influential men in the establishment of our Graded Schools. In appreciation of his zeal and devotion to the Graded School cause in the campaign he was elected a member of the Board of Education and Learning, which position he held for nearly two terms—the only member who was present at every meeting. He was secretary of the Board from its organization to the time of his resignation. He was a trustee of the Methodist Female Seminary, which position he resigned to become a member of the Graded School Board.

Mr. Whitaker moved to Goldsboro in December, 1884. While in Goldsboro he became prominent in the affairs of town and county. He was made Chairman of the County Board of Education. He was also local editor of the Goldsboro Messenger and was proprietor of a bookstore. He returned to Durham in the year 1888. He is now editor of the Durham Plant. He is a good thinker and a fine writer. While Mr. Whitaker has never taken a regular collegiate course, he is nevertheless an educated man; few men of his age are as well equipped for life. He is unlike most men in that he is ever faithful to his friends. His motto in life is "Do unto others as you would that they should do unto you."

PRACTICAL
Horse Shoer
—AND—
BLACKSMITH,
Green Street, near Cleveland,
DURHAM, N. C.

Horses Shod on correct principles. Thousands of horses are permanently injured
by bad shoeing. The undersigned has studied the anatomy of the horse's foot, and
has had many years' experience, and he believes that he can satisfy any reasonable
horse owner with his work. He solicits a share of the public's patronage.
