ITS ORGANIZATION IS MILITARY
and is highly commended by United States Army Officers and
Army Inspectors, who pronounce it among the four or five best of
the hundred schools of the Union which have had Military Profes-
sors detailed from the Army.

MODERN LANGUAGES
Since the U. S. became a world power, the necessity of our ceas-
ing to be a mono-lingual people only is obvious. To meet the
need for our pupils, we offer the spoken German, French and
Spanish, taught by a Master of Arts of Harvard, with more than
five years of special study of modern languages abroad.

SAFETY AGAINST FIRE
Since 1891 more than 1,200 pupils have perished in School FIRES
in the U. S. All in HIGH BUILDINGS, 180 of them in the Col-
linwood O. Fire on the 4th of March, 1908. We have only
SINGLE STORY buildings. Our FIRE ESCAPE is the
GROUND, through more than 80 doors, and 100 windows, all on
the ground floor, making 200 GROUND FLOOR FIRE ES-
CAPES for 150 PUPILS.

HAZING
During the last twenty (20) years as many as FIFTY (50) pupils
in Northern Schools and Colleges and FOUR (4) in Southern
Schools and Colleges have been PUT TO DEATH by hazers,
many more have been injured for life and the guilty parties have
gone Scot free.

HAZING is absolutely excluded from Bingham by our pledge of
honor against it, as any patron or pupil of the School for the last
three years will testify.

Our safety against FIRE and the absence of HAZING differen-
tiates Bingham from any other Institution of Learning in the U. S.

“THE LAND OF THE SKY”

ASHEVILLE Directory, the fourth annual issue, we herewith present to the public, and in doing so the publishers wish to thank the citizens and the business men for their continued assistance and financial support.

ASHEVILLE, Buncombe county, N. C., has made wonderful strides in the last few years: climate that is conducive of good health has been an important factor in the development of the city, but Asheville is more than a health resort, were it not for the logical industrial location and the surrounding business environments, there would not have been the rapid increase in population and the remarkable building activities of the past two years.

ASHEVILLE, with its high altitude (2,300 feet above sea level) and its wonderful climate is still, and will always be, a Mecca for multitudes of tourists; but the city is now INDUSTRIAL ASHEVILLE. The industrial advantages of the city have at last been realized, and the result is that some of the largest concerns of the country have already established plants here.

ASHEVILLE, both as a market and shipping center is well located. Asheville while goods can be placed in the markets southeast and west of the Mississippi valley quicker than those of any other important manufacturing point in the State; the old cry of excessive freight rates has been eradicated, and Asheville has been placed on an equal basis with other manufacturing points of the southeast.

ASHEVILLE is a city of electricity, that wonderful power, that is generated by harnessing the ever-flowing streams and rivers; that king of power that has changed the Southland from a desert to an oasis of industrial enterprises, is so cheap in Asheville that the modest dwellers do not hesitate in using all they desire.

ASHEVILLE, when it comes to municipal improvement and advantages, is the equal of any city its size in the world, and far superior to half the cities with double its population; a splendid system of street railway and interurban lines; an educational system complete in every department, from kindergarten to graduating classes; a water system beyond competition, the water used emanates from crystal springs over 6,000 feet above the sea, near Mt. Mitchell, the highest peak east of the Rocky Mountains; and last, but not least, a moral atmosphere that calls for a high attainment in character and conduct.

ASHEVILLE has made a splendid growth in population since the last directory was issued, the directory being the best barometer of a town’s growth. The figures which we herewith give represent all persons living or doing business within the city, as well as those living in the adjacent suburbs which help to make a city, and in fact are a part of it. The book contains 11,995 names of individuals (wives, children and firm names being excluded), using the conservative multiple 2½ times gives a population of 26,987. (A great many directory publishers use 3 and 3½ times, and a few as high as 4 times).

In conclusion we again desire to thank our patrons for their support and the public in general for courteously giving us the desired information. As to who’s who, we refer you to the advertising pages.

PIEDMONT DIRECTORY CO.
INCORPORATED
Home Office
ASHEVILLE, NORTH CAROLINA

We publish directories—not only in cities and towns throughout the great Piedmont section of the Carolinas and Georgia, but in Tennessee and the Virginias. Directories are for the good of the public and should be supported by every business man and public-spirited citizen, they advertise to the world your city as well as your business. A man is often judged by his clothes; so is a city often judged by its directory. A directory filled with advertisements is a splendid advertisement for your city as well as your business,

Asheville School

Located in the Mountains of North Carolina

The following is a statement of its most important features:

1. The school is situated in the most healthful region east of the Mississippi River, in a climate giving the largest opportunity for out-door life.

2. The grounds contain seven hundred acres of land, providing fields for sports, ponds, streams, woods and hills. This land was selected not only with regard to its usefulness, but also for the beauty of its surroundings.

3. The buildings were constructed especially for school purposes and are thoroughly sanitary.

4. The courses of study, though broad, are consistent, and give the best preparation to boys who desire to enter any college or technical school or to go into business.

5. The teachers are college graduates, chosen for their fitness to instruct and care for boys.

6. The boys are under the constant care and charge of the principals and of their families.

Last September seven graduates entered Cornell, four Yale, two Princeton, two Williams, two Amherst, two Case, one Harvard, one University of Michigan.

Present students are from Massachusetts, Connecticut, New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Virginia, North Carolina, South Carolina, Georgia, Florida, Louisiana, Tennessee, Kentucky.

Recently a large building has been erected and therefore fifty more pupils can be received.

Copies of the Year Book, giving a full description of the school, will be mailed upon application.
