PREFACE

NOTE—This article was written by a Senior English class student of the High School as a part of the regular English work and the selection of this paper was made by the Chamber of Commerce.—Publii.

HISTORY OF BURLINGTON

There is an industrial city, situated in the north central portion of the State of North Carolina in what is termed the Piedmont Section. This city is midway between Greensboro on the west and Durham on the east. It is on Highway No. 10 in Alamance County and about sixty miles west of Raleigh, the State capital. The land in the vicinity of this thriving city is fertile. This city is the center of an area that is largely devoted to manufacturing as well as agriculture, to dairying, and to truck farming. The name of this city is Burlington.

The land for the city of Burlington was bought by the North Carolina Railroad Company. The north side was bought from Mary Ellen Sellers. She inherited it from her father Peter Ray, who bought it from William O'Neal, who bought it from William Perry, an agent for Lord Granville of England. The south side was bought from Dr. W. C. Tarpley, who bought it from Ben Grant. Ben Grant's wife inherited it from her father Mason Tarpley. Tarpley's wife was the daughter of Ephriam Cook, who bought it from Lord Granville of England.

The name of this settlement was Company Shops. Its first charter was issued in 1855. At first there were only three families, but it grew gradually. These railroad shops first were built in 1855 and many people were employed. As the work in the shops progressed the number of people in the community surrounding it increased.

Dr. John Moore was the first doctor here and Mr. W. H. Carroll was the first lawyer, coming here in 1899. A few stores were established and also a few churches. Some of the merchants were Holt, Grant & Holt, C F. Neese, and Freeman & Zachary. The first church was Union Church which is now used as a school building. The old Lutheran Church was second and the old Episcopal Church was third. The latter is used for a kindergarten.

About 1881 the Lafayette Mill was built. This was located where the Aurora Mill is now. In 1883 the Plaid Mill was founded.

Part of the railroad shops soon moved to Manchester, Va., and then moved back. The entire plant was then moved to Spencer, N. C.

In 1887 the people decided they wanted to change the name from Company Shops. A paper was placed in a store and anyone desiring had the privilege of writing on this paper the name he or she would like to have. The paper was referred to a committee of five, composed of Messrs. J. A. Turrentine, W. A. Fogleman, J. A. McCauley, W. A. Erwin, and R. A. Freeman, who met up over Freeman's Drug Store. They decided upon the name of Burlington and submitted it to a mass meeting which was held at Mr. Jim Holt's store. The name was adopted.

The first newspaper was the Burlington News. It was published July 25, 1887, being edged and owned by Mr. W. F. Clapp.

At that time there were no banks here. Later the Morehead Banking Company, a branch of a Durham bank was opened. The first cashier of it was Armstrong Tate and its first depositor was J. W. Cates.

(Continued on Page 3)
There was a free school on the hill just west of the Coffin Factory. The West Burlington children attended the Brown's Chapel School. Later a private military school was organized under the direction of H. L. Murphy. A Methodist Episcopal boarding school, known as the Burlington Academy, was opened in 1889. The Burlington Graded School was opened September 1, 1901.

The city of Burlington has progressed rapidly in industry and population. It now boasts many mills and fine buildings. The Hotel Alamance is one of its finest hotels; the Piedmont is another. There are three finely and modernly equipped school buildings. These are Burlington High, Maple Ave., and Fisher Street. Each school has good cafeteria service.

The present population of Burlington is about twelve thousand. The water supply comes from Stoney Creek. This is a private stream owned by the city. A new dam has recently been completed, thus enlarging the supply of water. The water is purified and distributed over the city through many miles of water pipes.

The churches of Burlington are about seventeen in number, representing nine denominations which are: Baptist, Christian, Episcopal, Friends, Holiness, Lutheran, Methodist, Reformed, and Presbyterian.

There are many recreative places in and about Burlington. Some rivers and lakes near Burlington furnish the sport of fishing. There are also numerous tennis courts scattered over the city. To the west of the city is the Burlington Country Club golf course. This is a fine place for recreation and many golf enthusiasts find great pleasure in making a daily round on the course. Swimming is another of the sports of Burlington, there being several swimming pools here.

The theatres are the Carolina, the Municipal and the Grand. All are well furnished and are enjoyed to a great extent by citizens of Burlington and nearby towns.

There are several strong banks here. They are: Atlantic Bank & Trust Company, Bank of Commerce, First National, Hood System, and Morris Plan. A new eight-story building to be occupied by the Atlantic Bank & Trust Company is now under construction on the corner of Main and East Davis streets. The combined resources of all these banks are more than eighteen million dollars. These banks assist in the general development of the community. They are well managed and equipped to care for the interests of the depositors. There are three building and loan associations in addition to the banks.

There is an efficient Chamber of Commerce, and the merchants have organized into a Merchants' Association to protect their interests and uphold their trade. The government is an aldermanic one.

Burlington is now one of the most thriving and industrial cities of North Carolina. Its climate and situation are very favorable. The steady growth of Burlington in industry, population, and facilities for life place it in a position envied by many other cities.

For the past three years Burlington has increased in industrial development and has averaged one new plant a month. There are woodworking, hosiery, and textile plans here. There are thirty-three hosiery mills, nine textile mills, and approximately forty miscellaneous mills, of which the new Rayon Plant is one. These mills give a weekly payroll of about $100,000 and employ about seven thousand persons.

The sewer mains, paved streets, sidewalks, and large number of beautiful homes and residences combine to make Burlington a very desirable place to live.

Mr. E. H. Miller, Pres. Commercial Service Co.

Asheville, N. C.

Gentlemen: First, please accept my apologies, sincerely given, for my recent criticisms, which I now see were unjustified.

Also wish to thank you for the data furnished relative to the population of the city.

Have just finished going through the directory thoroughly and taking it as a whole, it is a very creditable piece of work and Mr. Lyle's letter is correct in its conclusions. I trust that this letter may be the means of establishing close and cordial relations between us and hope that when you are next in Johnson City that I may have the pleasure of meeting you.

With best wishes, I am

Very truly yours,

CARROLL E. KING, V. Pres.

To the Members of Merchants Association:

Your advertising committee has gone into the merits of the proposed directory for Greenville, submitted by the representative of the Piedmont Directory Co., and endorsed same for your consideration.

Realizing the need of a real directory, such as the bearer proposes to issue, the committee feels that it will be money well spent by the business interest of the city.

The classification by business will be found after the alphabetical arrangement of names. For full indices to the contents of the work, see index. (*) A star (*) is often used in most directories for various purposes. A star (*) or hand (HAND) is used in the Business Department of a directory to denote a special classification or listing; sometimes in the Street Department, in front or after a number, to denote a business place; it may be used, at the option of the publisher, to denote a married, or single person; it is most generally used before or after a name to denote a colored person. Its use, however, being so general, the Publishers will not assume any responsibility for errors or its wrong use.

Giving Names of Householders and Denoting Business Places

- All streets and avenues are arranged in alphabetical order; the house numbers are arranged in numerical order, with names of occupants after each number.
- Dash before name denotes that number is wanting.
- (*) Purpose of star in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use; errors often creep in.—Publishers.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business STAND OUT. Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

The Main Street of your City Catalog for a whole year.
