Asheville, N. C.

"In the Land of the Sky"

Asheville, the principal city of Western North Carolina and the county seat of Buncombe County, North Carolina, has long been famous as a year 'round resort and as a distribution and industrial center in the mid-southern region. The population of Asheville in 1930 is estimated to be approximately 60,000 and that of Buncombe County at 100,000. Occupying a position on a high tableland (2,300 feet above sea level) in the mountains of Western North Carolina, the city is favored with a climate which is mild at all seasons, and which is a contributing factor to the city's fame as a resort.

The mountain region surrounding Asheville has long been known by the poetic title of "The Land of the Sky." The name was first applied to the region by Christian Reid (Mrs. Frances Christian Fisher Tiernan) a gifted author. The section is noted for the beauty of the mountains and for the crystal clear atmosphere, a product of the altitude of the region. The mountains of the Land of the Sky have an individuality and a charm all their own; they are traversed by clear streams of pure water and in many of the high mountain valleys, lakes have been created which add much to the beauty of the section.

Asheville a Prosperous City

Asheville, being the commercial center of Western North Carolina, has increased greatly during the past decade in industrial prosperity, in commercial activity and in the amount of the annual tourist trade which is an important factor in the wealth of the section. Abundance of water power and of natural resources has resulted in a growing industrial activity. Manufacturing has followed a number of different lines. Leather, paper, blankets, bleached cotton goods, furniture, brooms, mica products, dimension stock, rayon and other products are produced in Asheville plants. Since 1900 the value of manufactured products in Buncombe County has increased from $3,000,000 to more than $36,000,000. Near Asheville the American Enka Corporation is operating a $10,000,000 rayon plant, which in 1930 will nearly double the total value of manufactured goods.

Water Power in Western North Carolina is a great contributing factor to

(Continued on Page 16)
the industrial growth of the section. The dam of the Carolina Power Company on the Pigeon River, near Asheville, is the newest unit in hydroelectric development in the mountains of this region. The dam develops more than 100,000 horsepower.

The business and commercial development of Asheville is measured by the dollar volume of business in the city, which increased during the last nine years, more than one hundred and sixty-nine per cent. The population of the city has increased 94.7 per cent in the past ten years and the growing wealth of the city is reflected in the 159 per cent increase in bank deposits in the past nine years. Asheville has a splendid public school system consisting of ten grammar schools and three high schools for white pupils and four grammar schools and one high school for colored pupils. A number of other schools are located in the suburban towns and villages surrounding the city. A new senior high school and junior college has just been completed.

The city has a well developed civic center which is being constructed around Pack Square. A public library, a city market, a new city hall, a new county building and the central fire station are located here. The city is developing the street system of the city by means of viaducts and by the construction of new streets and by the recent completion of the Beaucatcher Vehicle Tunnel which latter is a city-county project.

The Mountain Industries

The mountain industries are a unique enterprise in Asheville. They were started a number of years ago by George W. Vanderbilt and are profitably operated by the mountainers of the section. Among those industries might be mentioned the Biltmore Homespun plant located near Grove Park Inn. Here pure woolen homespun is manufactured by mountain men and women who operate hand looms. The Tryon Wood Carvers produce artistic wood carving in black walnut and other woods, at Tryon, North Carolina. At Tryon also is located the plant of the Tryon Weavers, makers of homespun. Hand woven rugs, pottery and metal work are among the other enterprises entered into by mountain craftsmen in the region near the city.

Asheville’s Resort Equipment

Asheville is the center of a scenic playground, which is frequented by hundreds of thousands of visitors at all seasons of the year. Eleven modern inns and hotels cater to the wants of a cosmopolitan crowd and offer a wide range of accommodations. Both American and European plan hotels are available. Five golf courses offer a wide variety of play to the visiting golfer. Courses are available at the Biltmore Forest Country Club, the Asheville
Golf and Country Club, Malvern Hills, the Municipal Golf Course, and at Lake View Park. Riding, swimming, tennis, hiking, motoring and other activities contribute to the pleasure of the visitor in the Land of the Sky.

Asheville offers the facilities of nine excellent theatres and supports an annual season of opera. A baseball club is maintained as a member of the South Atlantic League. Games are played during the season at McCormick Field. A municipal stadium has been completed where football games are played during the autumn season. The city is the scene for annual golf and tennis tournaments. Horse shows, annual balls and festivals add to the interest of the social season in the city. Asheville is the latest resting place of the famous writer, O. Henry, and a memorial collection of contemporary books is established in his memory at the Pack Library. The Rhododendron Festival held in June in Asheville is one of the south’s most colorful celebrations.

Government

Asheville is governed by a board of three commissioners, the Mayor, presiding, the commissioner of public utilities and the commissioner of public safety. At present these officials are Gallatin Roberts, Mayor; L. B. Rogers, Commissioner of Public Utilities, and C. H. Bartlett, Commissioner of Public Safety.

Asheville has provided first-class fire and police protection and the city has constructed public swimming pools and recreation parks. The water system of the city is one of the best in the United States and is being developed to provide for a rapidly growing population. Asheville’s water comes from the summits of the mountains surrounding the city and is of high purity.

History

Asheville was established in 1794. It was at that time called Morristown. In 1797 the town was incorporated as Asheville, the city being named for Samuel and John Ashe, two eminent men of the period. The commission form of government was adopted in 1905. The boundaries of the city were enlarged a number of times, the city limits being extended last in 1929.

Transportation

The Southern Railway serves Asheville with four lines, which give the city rail connection with all parts of the country. The great increase in freight through the Asheville terminal has necessitated the construction of a new freight station. Nearly fifteen hundred miles of improved state highways connect Asheville with other parts of the Land of the Sky, making

(Continued on Page 18)
motoring one of the most pleasant methods of seeing the beauty of the section. The State of North Carolina has been one of the leading States in the construction of good roads and the highways near Asheville connect with trunk line highways extending across the state. National highways meet here which give motor connections with all parts of the country. Among the named highways which intersect at Asheville are: The Appalachian Scenic Highway, the Buffalo Trail, the Dixie Route A, the North South Route, the Appalachian Way, the Ontario to Florida Short Route, and others.

Agriculture

The region around Asheville is being extensively developed for farming. Apples, grapes and other fruits are becoming major crops and the Farmers Federation, a marketing organization, is aiding in the development of an intelligent system of agriculture. The value of the total crops for the region is increasing annually.

Nearby Cities

Within a short distance of Asheville are located a number of other cities and towns of importance. Hendersonville, Brevard, Waynesville, Canton, Sylva, Dillsboro, Bryson City, Weaverville, Burnsville, Spruce Pine, Black Mountain, Old Fort, Marion, Franklin, Murphy, Andrews and other communities are resort centers in The Land of the Sky.

Scenic points of interest near the city include: Chimney Rock, Lake Lure, Mount Mitchell, Mount Pisgah, the Pisgah National Forest, the Great Smoky Mountain National Park, the Sapphire Country, Lake Junaluska, the Blue Ridge, the Royal Gorge, the Nantahala Gorge and others.

The Asheville Chamber of Commerce

The Asheville Chamber of Commerce serves Asheville and Western North Carolina. The Chamber of Commerce is a powerful agency with a membership consisting of prominent citizens. The Chamber of Commerce promotes the progress and prosperity of Asheville and surrounding region through the agency of its convention bureau, its publicity bureau, industrial bureau, information bureau, and executive departments. Chief officers of the organization are: William A. Smathers, president, and Fred L. Weede, manager. Offices of the Chamber of Commerce are located on Market Street. Visitors are cordially invited to take advantage of the information service and other facilities offered by the organization.

PRINTERS
BINDERS

Nearly a quarter century catering to the printing needs of manufacturers and others.

"Particular Printing for Particular People"
Homeseekers—
Manufacturers—

LOOK THE SOUTH OVER

If you are looking for a good location to start any Industrial Enterprise, large or small, or if you are seeking a homesite in a healthful and delightful climate,

Note the Wonderful Growth, Ideal Climate, inexhaustible Hydro-Electric Water Power, Good Honest American Labor to be had at Reasonable Wages.

The South is destined to become the Great Manufacturing Center of North America. If you are seeking a manufacturing site or a home, come South—mild climate, no rigorous cold—Beautiful Scenery.

Hospitality Unexcelled

The South Deserves Your Consideration—In the South are cities that offer great opportunities to the Manufacturer or Homeseeker. If you want further information, write the Chamber of Commerce, or, write us.

WHEN WRITING ADVERTISERS, PLEASE MENTION THE DIRECTORY
Character ---

Between Reputation and Character is a fine distinction --- through time and deeds comes the ultimate appraisal of character—a definite policy and practice is the operating plan of The Asheville Citizen — to do the right thing as mankind understands the right.

The Citizen’s own record of achievement is a reflection of its high character.

The Asheville Citizen is made first for its readers—which, of course, is reflected by its completeness in every department of news gathering.

If you are not already a subscriber, call 5500 and ask for the Circulation Department.

THE ASHEVILLE CITIZEN
