Concord, N. C.

PREFACE

The publishers take great pleasure in presenting to the public this edition of the Concord, N. C., City Directory, for it represents an active, growing, progressive city, whose people have set out to accomplish great things and the progress of the city is the result of the energy and enthusiasm of its inhabitants.

The problems of making the Concord Directory have been many times greater this year than ever before; the publishers have overcome these difficulties and have made what they believe to be one of the most complete and accurate directories ever published of Concord.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and comprehensive store of information regarding all the interests of the city.

The Concord Directory has had all the advantages of a thorough and complete organization, which is indispensable in the production of a city directory. The highest degree of efficiency in directory making has been attained in the production of the work.

It has been customary for the directory publishers to estimate the population and this directory shows Concord and its surrounding suburbs to be 11,211.

The 1924-25 Directory, as in past editions, shows many changes, which are particularly obvious in the Street or Householders' Department, where the names are grouped according to location.

The directory is a story of the people. It lists all the people, rich and poor alike; tells who they are, what they do, where they live. The directory is a permanent history and the old directories form a complete record of the city, its changes and progress.

Through the publishers' membership in the Association of North American Directory Publishers, directories of all the leading cities of America are kept in its library in Asheville for the use of its patrons and the public in general. Copies of the Concord Directory are sent to all the principal cities of the United States and Canada. Thus the directory represents Concord throughout the country and is a constant booster for the city. Nothing advertises a community like the City Directory and it is true in many cases that a city is judged by its directory. Directory advertisers are thus accessible to all the buyers of America, who must consult the classified lists of the Directory to purchase any commodity intelligently.

Respectfully,

CONCORD, N. C., STREET DIRECTORY
GIVING NAMES OF HOUSEHOLDERS AND DENOTING BUSINESS PLACES

Vol. VI
THE PIEDMONT SERIES 1924-25

NOTE: Streets numerically named are to be found after those arranged alphabetically. All house numbers are arranged numerically following the description and location of each street, giving the name of household. Purpose of star (*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use; errors often creep in. Dash ( — ) before name denotes that number is wanting.
