CENTER OF HISTORIC INTEREST

CHARLOTTE and Mecklenburg County comprise a region rich in historic lore. The early settlers came in three waves—the Scotch-Irish from Pennsylvania and Virginia; the Germans from the same parts of the country; the English, Scotch, Germans, Huguenots and Swiss from the South by way of Charleston and Georgetown. Charlotte, named for Princess Charlotte of Mecklenburg-Schwerin, wife of George the Third, was incorporated in 1768. The citizens of Charlotte in convention assembled, electrified by the news of the Battle of Lexington, made the first declaration of independence from the British Crown, known as the Mecklenburg Declaration of Independence, on May 20, 1775. Cornwallis, while headquartered in Charlotte, named the town "The Hornet's Nest," on account of the activities of the Patriots, Andrew Jackson, seventh President of the United States, was born in Mecklenburg County, March 15, 1767. James K. Polk, eleventh President of the United States, was born at Pineville, just outside of Charlotte, November 2, 1795. Jefferson Davis held the last meeting of the Confederate Cabinet in Charlotte, April 20, 1865.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business STAND OUT. Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on The Main Street of your City Catalog for a whole year.

Creating a coherent narrative from this textual data is challenging due to the fragmented and varied nature of the information, including phone numbers, names, addresses, and business details. The document appears to be a directory page listing businesses and individuals, with some entries being abbreviated or incomplete. This page contains information about various businesses and their locations, including phone numbers, with a focus on the names and addresses of individuals. The text is not structured in a conventional way, making it difficult to construct a coherent narrative. It seems to be part of a larger directory, possibly a city directory, given the variety of entries and the format used.
