PREFACE

"A Greater Nation Through a Greater South."

Winston-Salem is situated in the west central portion of North Carolina, in that part of the State known as the PIEDMONT PLATEAU. The value of its factory products amounts to $1,000.00 per capita per annum. It is the county seat of Forsyth county. Forsyth is one of the richest agricultural counties in the State.

Climate—At an elevation of about 1,000 feet above sea level, in a section of the upper South where the most even tempered, salubrious, and best all-the-year-round climate to be found on the American Continent prevails.

Labor—The surrounding counties, particularly the mountainous section, are peopled by a hardy, intelligent race of white people almost entirely of Anglo-Saxon origin, and black people of unusual physical energy, due to their climatic environment.

Power—Proximity to the coal fields, with direct connection through the Norfolk and Western Railway to the Pocahontas mines makes for cheap steam-power, and with the hydro-electric energy furnished by the lines of the Southern Power Company economic power is available for all uses, whether required in large or small units.

Raw Materials—The contiguous cotton fields secure an unlimited supply of raw cotton for manufacture into yarns and cotton fabrics.

The great number of cotton mills in the Piedmont Plateau makes available, at low cost, cotton yarns in a wide range of numbers for manufacture into hosiery, underwear, and sundry knit cotton goods.

Hardwood lumber in wide variety is economically available for manufacture into furniture, wagons, building materials, and sundry wooden articles.

The Virginia and Tennessee iron furnaces furnish an economic supply of PIG IRON for the manufacture of farm implements, machinery, stoves, columns and castings of great variety.

As an Industrial Center Winston-Salem is already pre-eminent, with a diversity of manufactured products, amounting in actual value to 38 million dollars annually, which is equivalent to 1,000 dollars per capita per annum.

Population—In 1880 the U. S. census showed the population in the two towns to be 4,194; in 1890 they had grown to 11,114; in 1900, with census figures combined, 13,650; in 1910 the U. S. census report was 22,700 inside the city limits. Since that time the territory has been enlarged, taking in 3,000 more, which, added to the normal increase, gives a city population of 36,000. The population directly adjacent, though outside of the city limits, is 9,000, or more, making a total of 39,000.

Written by Winston-Salem Board of Trade.

THE WATER OF
VADE MECUM SPRING

is, in my opinion, the best water in the United States of the Alkaline-Purgative class. It is the same character as that of Carlsbad, Germany, and like that water, exceedingly well adapted to the cure of Engorgement of the Liver, Chronic Gastric Catarrh, Gall Stones, Rheumatism, Obesity, Gout, Gravel, and diseases due to an excess of uric acid. HINTS BY WISE FOR WISE MEN

Directory advertising and success of business are Siamese Twins

$1.00 Bills for 50c would be a great bargain, but no more than Directory advertisements to progressive business men.

If you stood 1,000 men, who ought to buy your goods in a row, you certainly would sell some of them. The City Directory puts them all in a ROW for you. Moral—advertise in your Directory.

The advertiser creates demand. When a duck lays an egg she just waddles off as if nothing had happened. When a hen lays an egg there's a whole lot of noise. The hen advertises—Hence the demand for hen eggs instead of duck eggs.

A PERSISTENT ADVERTISER

One of the most persistent advertisers in the history of success was Robinson Crusoe.

He believed in advertising.
He knew what he wanted—a ship.
And he put up an ad for one.
He flung a shirt on a pole at the top of his island; that, in the language of the sea, was plain to every seafaring man.

The circulation was small and there was no other medium, but Crusoe kept it there despite the fact that he got no inquiries for a long time. He changed his copy—as one garment after another was flapped out—and in the end got what he wanted, was happy, and his name and fame have come down through the ages.

The present-day merchant is much better off than Crusoe.

He Has The City Directory through which he can reach all the people, some of whom want his goods. Your chances of success are thousands to his one, but your chances of failure are the same as his.

Suppose Robinson Crusoe had taken down that signal after, say a year, and declared, "Advertising doesn't pay," where would he and his story now be?

Put up your signal and keep it up. There will be a number of ships cruising around during the year 1915 that will be glad to call and take you off the island of Dull Business.

Crusoe advertised under discouraging circumstances. You have got a sure thing—The City Directory.

Mr. Manufacturer, Merchant (Wholesale and Retail):

No other Publication in the world so thoroughly represents the commercial, social and private interests of your city as The City Directory. Representing, as it does, every private citizen from the hovel to the mansion; every commercial, social, religious and educational institution and all other data pertaining to your city, it is beyond question, the most accurate and complete index to the city and its various interests in existence.

The Directory is the dictionary to the city and the Piedmont Directory Co. intend that 1915 Directory shall be The Unabridged Edition. "The first aid to strangers and a standard remedy for homefolks," accurate, complete and up-to-date in every respect. Unusual prospects of profit (direct and indirect) and Civic Pride should influence every manufacturer and business man to have full representation in this Directory, and every well-governed home to have a copy of the latest Directory for the use and convenience of Strangers and visitors.

"Know thyself" is sound medical advice; Know Your City is equally good business advice. Consult the Directory when you want to buy or sell and you will get the best of everything at the lowest price and help reduce the hight cost of living.

Mr. Manufacturer and Business Man—It's a fact that the Directory is your city's only standing representative to the world beyond your own gates and the only index to your city's growth and prosperity. Future Directories, by the exchange system, now in general use, will be placed in the Directory Libraries of the Principal Cities of The United States for the use of all who wish to consult its pages. A well-patronized city directory indicates a good city to locate in.

Yours truly,

PIEDMONT DIRECTORY CO. Ernest H. Miller, Pres. and Genl. Mngr.
