PREFACE

In presenting Vol. XXIV of the Asheville, N. C., Directory we do so with pride, being convinced that the information contained herein is as accurate and correct as it is possible to make a publication of this kind.

Asheville has made remarkable progress during the past year. Numerous buildings, both business and residential, having been built, both in and around the city.

In educational advantages, Asheville is in the lead, having over twenty up-to-date school buildings and a corps of over two hundred teachers. The City owns a ball park which is one of the best in the country. Here the students have their athletic contests. Not only does the public school system rank with the best, but in and around Asheville are located some of the best schools in the South, among which may be mentioned Asheville University, Bingham and Asheville School for Boys, St. Genevieve’s College for girls, Cecil Business College and others.

At Asheville is conducted a summer Normal School with a large attendance from every section of the country.

In conclusion, we wish to thank the people for their courteous way of giving information, and the business men for their support.

Population with Suburbs, 47,128.
December, 1924.

COMMERCIAL SERVICE CO.
15-17 Rankin Ave.
Primarily a resort city Asheville, North Carolina, is situated within 24 hours traveling distance of any terminal point within an area inhabited by over fifty million people, or half the population of the United States. It possesses a climate which is acknowledged the best for all year round desirability among resort places. The climate is both healthful and comfortable, extremes in temperature being practically unknown.

The population of Asheville, including suburbs, is conservatively placed at 60,000, 33,000 of this number dwelling within the city limits. The 1920 census gives a figure of 28,500, but the number of new homes built and occupied since this time fully accounts for an addition of 10,000 to the population.

During the past four years a tremendous increase of residential districts outside the city has taken place to accommodate a large number of families attracted by the climatic conditions and the scenery of this region. The tourist business, which is the most important asset in Asheville's commercial life, lasts the whole year round, having its main seasons, however, in the spring, summer and autumn. Great numbers of people returning from the extreme southern resort places stop in Asheville during the spring months, escaping the heat of the coast resorts and awaiting the end of severe winter in the northern cities.

In the middle of summer and particularly in August and September, Asheville is attractive to tourists from all over the South who have to escape the extreme heat of the lowlands and come to the mountain plateau of which Asheville is the center. The low summer temperature which allows the use of blankets every night is so great an attraction to southern people that a great many maintain summer homes in Asheville and vicinity.

The growth of the city, however, is only in part due to the increase in home building, as many millions of dollars have been expended by local enterprises in the enlargement and improvement of the business district of Asheville.

When writing advertisers, please mention the Directory.
prominent achievements during this period have been the erection of the new Battery Park Hotel together with the removal of millions of cubic feet of earth forming Battery Park Hill, the erection of the George Vanderbilt Hotel as a cooperative enterprise at a cost of about one million dollars, and the erection of the Jackson Building on Pack Square, which is 14 stories high, Asheville's first sky-scraper. The Battery Park operation, which was the greatest of the number, has opened altogether five new streets and made available a good many acres of valuable business property.

Important in the development of the city is the building program undertaken by the City of Asheville which is to be completed largely during 1925 at a total expenditure of about three million dollars. This is to include new municipal buildings and the grading and paving of numerous new streets, Hilliard Street especially being of untold value in giving the city a new connection for traffic to and from West Asheville without crossing the most congested section. The city has also completed an excellent recreation park on the Swannanoa River about four miles above Biltmore, which aids greatly in the entertainment of local people and visitors. Here a large swimming pool and attractive dancing pavilion are maintained in addition to other amusement devices.

Another structure which is to be completed during 1925 is the new Medical Building at the corner of Walnut and Market Streets. This is being erected at a cost of $350,000.

The hotels of Asheville at the beginning of 1925 have a total guest capacity of 2,500, while the many inns and boarding houses of a high class can accommodate about the same number. Several apartment houses also have sprung up during recent years and others are contemplated to further enlarge the city's capacity. The hotels having the 2,500 guest capacity are the Grove Park Inn, Kenilworth Inn, Battery Park Hotel, George Vanderbilt, Manor, Princess Anne, Langren, Jenkins and Swannanoa-Berkley.

Next to the climate the scenic attractions of the city and countryside are important in drawing visitors and new residents. Set in the heart of the Southern Appalachian System, thirty miles from Mount Mitchell, the highest peak east of the Rocky Mountains, Asheville is surrounded by a round score of peaks over 6,000 feet high and about sixty more exceeding 5,000 feet. These mountains are covered with a rich vegetation, the stand of hardwood timber in this section being the finest reservoir of this important commodity in America.

These mountains with their forest covered sides form an important item in the conservation of water power, in Buncombe County, of which Asheville is the capital, there being 25,000 potential horsepower, only 3,000 of which has been developed. From the visitor's point of view they are a great attraction, offering motor trips of unequalled beauty together with hikes which well reward the industrious climber.

From the climatic point of view the ranges on all sides of the city aid in breaking hard winds and not infrequently in diverting from their course severe storms. While offering this protection they are at sufficient distance from the city itself to afford wide sweeping views of the countryside from any point.

A feature of which Asheville is not unjustly proud is its excellent water supply, derived from watersheds on the slopes of Mount Mitchell and the Craggy range. This water under analysis shows a remarkable purity and is so satisfactory to the taste that it is often drunk for pleasure by people who accustomed to lower grades of water find the Asheville supply wonderful. Even in the middle of summer it comes from the faucet as cold as it runs down the slopes of the high peaks.

Owing to the shortage which has been experienced in late summer, the city government has undertaken the construction of a basin on its watershed which will hold 80,000,000 gallons and also a distributing reservoir near Asheville with a capacity of 10,000,000 gallons. This work, undertaken at a cost of about $500,000 will be sufficient for the needs of the city for the next five years only, according to estimates made. Other abundant sources of pure water are still untapped so that Asheville faces no shortage of a serious or permanent nature, and the use of river water, abundant though it is, is not foreseen.

The city has the distinction of being the birthplace of scientific forestry in America and of good roads in the South. George W. Vanderbilt bought about 150,000 acres of land near Asheville over thirty years ago and here in addition
to building a home that is considered one of the finest country homes in America and is also an architectural masterpiece, he put in operation scientific forestry and in this he included a school of forestry in which many present day experts obtained their grounding. When at his death in 1914 the larger part of this was sold to the Government it was converted into Pisgah National Forest and is now a permanent monument to the foresight of this great American.

As a direct consequence of his developing this property the first hardsurfaced highways in North Carolina were built in Buncombe County and this lead in road building has been maintained until Buncombe is one of the best paved counties in the entire South.

In Asheville, is the last resting place of William Sidney Porter, the O. Henry beloved by millions of Americans. In Riverside Cemetery he lies with only a simple marker at his head, the name “Porter” in large letters little suggesting the romantic tale which ended at that spot. From the sloping hill which is his last resting place opens out a view over the French Broad River and the hills beyond which surrounds the spot with an atmosphere of beauty and peace.

Another national character whose last resting place is near Asheville is Bill Nye, famous humorist. He is buried in a little cemetery not far from Arden on the road from Asheville to the South.

These two graves are often visited by tourists and are among the principal points of interest surrounding Asheville. Other interesting spots frequently visited are: Sunset Mountain, overlooking the city, Mount Pisgah in the center of Pisgah National Forest, Mount Mitchell, the top of eastern America, Chimney Rock, an unusual granite formation known all over the country as a point of interest, and many others. Good highways spread in all directions placing no limit on the travel to the motorist in Asheville. He can motor in two days to Cincinnati, Washington, Richmond or Savannah, and by pushing can make Jacksonville in the same time. Within one day’s time he can reach Atlanta, Knoxville, Charlotte, Spartanburg or Greenville and other cities, many of these in two or three hours driving time.

The closer attractions offer the greatest inducement to motorists who spend a part of the year in Asheville and the many scenic highways which are gradually being connected into loop systems are always heavily traveled. A road which is to be improved during the present year will offer one of the best short drives in the section, passing over Sunset Mountain to Mountain Meadows Inn and Cravens Gap, and returning by way of Beaverdam Valley and Beaver Lake. The latter, built during 1924, is becoming a great attraction for Asheville residents and visitors, offering boating and swimming to suit all tastes. A concreted swimming pool at one end of the lake is very popular, protecting the less expert swimmer from the dangers of open water. A scenic drive around this lake and the adjoining development known as Lakeview and returning by way of Burnsville Hill and Woodfin, where the largest furniture factory in the South is located, is also very popular.

The latter part of this drive follows the French Broad River at a point where the major part of Asheville’s industries are located, a spur track from the Southern Railway System serving this section. Two factories, the Carolina Wood Products Company and the National Casket Company have chosen this spot and a number of smaller industries are located here. Broad level land for factory sites, served by the railway, are available here, offering opportunities for further industries.

Another industrial center is one the Swannanoa Valley, where a large bleachery has been erected by the Beacon Manufacturing Company, of New Bedford, Mass. A large rock crushing plant has been placed in operation by E. W. Grove in the vicinity of Swannanoa and a number of lumber and planing mills are found here. Other industries, including the Hans Rees Tanning Company and the Asheville Cotton Mills are located in the vicinity of Asheville’s freight terminal, where also a large packing plant with a capacity of 300 hogs and 50 steers daily is being completed by the Baker Packing Company.

The latter industry is expected to have a strongly beneficial effect on cattle raising in the county and surrounding territory as at present there is little market for the man who has only a few head of cattle to dispose of. The dairy industry has grown largely in the county, with two creameries, the Biltmore Dairy and the Carolina Creamery taking the lead and a dozen other retail dairies finding a market in the city. Strict standards for the inspection of both cows and milk gives an absolute safeguard to the users of milk in Asheville, while the
excellent green fodder available at all times of the year and the careful elimination of scrub stock gives a grade of milk renowned for its proportion of butter-fat.

Asheville has also, in The Miller Press, the largest directory and publication house in the entire South, and this concern has just completed a splendid new five-story building to take care of its printing business.

Agriculture has also received a new impulse and particularly truck gardening which is to a greater extent than ever supplying local and outside markets with home-grown vegetables. This development is generally considered of great significance in the development of a self-contained and independent community producing enough food for its own consumption and for export also. The development of apple growing has also come to assume important proportions, Buncombe County being third among the hundred counties of the State in number of fruit trees planted and bearing.

Although three new schools were completed last year and placed in operation, Asheville's public schools are still accommodating more children than they were planned for and steps are being taken to enlarge these facilities. At present Asheville has two high schools and fourteen grade schools while the 1922 enrollment was approximately 9,000 students and the 1921 enrollment is expected to be at least one thousand more, following the proportion of increase for several years past.

Buncombe County has the same problem to face and is continually erecting consolidated schools doing away with the "little red school-house." This is made possible by the construction of good roads, trucks being furnished to carry the children from outlying districts to and from their classes. Every effort is made in both city and county to furnish the best in the way of teaching and equipment possible. Outdoor exercise is an important part of school activities and classes in manual training in the high schools have met with notable success, wood carving particularly being executed with considerable skill by the students. Departments of home economics for girls are also conducted, exhibits from these classes showing considerable proficiency.

In spite of the heavy program of improvements undertaken by the city, Asheville's tax rate is extremely low, comparing favorably not only with other resort cities but with practically all cities of the United States having a population of 30,000 to 50,000. The amount paid by Asheville residents, including school and county tax is $2.94, while in Los Angeles the total tax is $3.96. Other examples compare equally favorable for Asheville. Rates for water, electric lights, gas and telephone service are also moderate.

An important feature of life in Asheville is sports. Golf particularly is extremely popular and can be played the year round on perfect all-turf links at both the Asheville Country Club and the Biltmore Forest Country Club, the latter on a site formerly part of the Biltmore Estate. Golf and tennis players are attracted to Asheville in the summer time by the cool weather which allows of strenuous matches in comfort. Many tournaments in both these fields are played regularly in Asheville.

Baseball of a good order is played by the Asheville team, which is a member of the South Atlantic League. McCormick Athletic Field, only five minutes from the center of town, is considered one of the finest ball parks in any minor league. Football and basketball matches in season are popular with Asheville people.

A revival of horseshoe pitching, popular and inexpensive pastime which also places a premium on skill, has taken place recently and many courts have been built in the city parks and other spots.

The total property valuation for Asheville in 1923 was placed at $79,000,000 and this figure has been constantly increasing since.

Civic spirit in Asheville has displayed itself not only in the organization of several civic clubs which are well attended by influential citizens, but also in cooperating with other agencies organized for the best development of Asheville's resources.

In this connection the Asheville Chamber of Commerce has undertaken a five-year program of progress designed to direct as much as possible the city's growth in the right channels and encourages a continued healthy development. The public support given this move has indicated that the citizenship of Asheville is genuinely interested in improving the city until it ranks as one of the best in the country.

WILBUR DEVENDORF,
Lessee and Manager.
The Battery Park

The Battery Park, one of the south’s finest hotels, offers the traveling public unsurpassed convenience and comfort.

Within a few minutes walk of all the shops and theatres, yet quiet and restful because of its spacious plaza and the wonderful mountain views as seen from every room.

Visitors in Asheville will find a hospitable welcome at the Battery Park.

WILBUR DEVENDORF, Lessee and Manager.

Classified Business Directory
-OF-
ASHEVILLE, N. C.

Vol. XXIV
THE PIEDMONT SERIES
1925

NOTE—Patronize those whose names are in large type, for they are the progressive ones and generally leaders in their line.

Index appears in front of special business headings only, for which an extra charge is made.

Purpose of (*) star in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use, errors often creep in.

PRINTING

In Fact, Anything You Want in the Printing Line
Our Aim Is Good Workmanship
and Prompt Service

Ever since the day Ben Franklin revolutionized the world by his first sheet fresh
with printer's ink, the printing industry
has come to the front by leaps and
bounds. Today printing is an absolute
necessity.

GET RESULTS FROM YOUR ADVERTISING

### Asheville, N. C., Street Directory

Giving Names of Householders and Denoting Business Places

**Vol. XXIV THE PIEDMONT SERIES 1925**

**NOTE**—All streets and Avenues are arranged in alphabetical order, the house numbers are arranged in numerical order with names of householder after each number.

Dash (—) before name denotes that the number is wanting.

(*) Purpose of star (*) in front of name is to denote colored person or firm, but we assume no responsibility for its wrong use, errors often creep in.

What To Do In Case of Fire

Read and understand the instructions on the box. Opening the door does not send the alarm. You must pull down the inside handle and wait for the firemen and direct them to the fire.

If a fire alarm box is too far away use the telephone. Call Fire Department, giving your name, street and number.

The Miller Press
PRINTERS

The Commercial Printing of this Office is in a Class by itself. No Order too Large or too Small.

Phones: 2186-138

ASHEVILLE, N. C.

---

The Commercial Printing of this Office is in a Class by itself. No Order too Large or too Small.
Is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the lists of those who sell do themselves great injustice. The classified lists in the Business Directory form the best buyer's guide on earth. A modern up-to-date method of getting what you want.

CONSULT:

The classified lists of names arranged according to trades, professions and pursuits in the Business Directory, (following the alphabetical list of names). They afford a valuable guide for the buyer, the seeker for professional aid, and those needing the services of skilled artisans.

The House of Directories

P. O. Box 952

Asheville, N. C.
ADVERTISING

is what nothing was ever sold without. If a loaf of bread is sold to a tramp who managed to glom onto a jitney, it had been advertised by the tramp's hunger and by somebody who told him where the bakery was. Or by the window of the bakery itself. There isn't a human being who doesn't believe in advertising. If he really doesn't, he had better commit suicide. And that will give him a lot of publicity that nobody can cash in on.

The man who claims not to believe in advertising is a—well, you know what Ananias was. This boob is too anxious for everybody to tell other people that his place is a good one to trade. But isn't willing to give the advertiser anything for telling the other folks. He is to use a modern term, a something-for-nothing tightwad. The man who puts on good clothes advertises his own respectability, and expects results in the shape of the respect of others. The man who dresses poorly because of necessity or purposely, advertises his poverty and expects results in other people's help or contempt. The doctor claims it is unethical to advertise, but he wants the newspapers to mention every time he has a case. The same is true of a lawyer. In fact, every honest person wants the right kind of advertising. Only dishonest persons are afraid of it, and they get it anyway.

TO GET GOOD ADVERTISING—TALK IT OVER WITH THE DIRECTORY MAN THE NEXT TIME HE IS IN YOUR TOWN
Citizen Want Ads

BRING RESULTS
READ BY 70,000 PEOPLE

How many people do YOU number among your friends and acquaintances?

How many could you reach in a hurry—by mail, phone or personal call?

The number is insignificant—PRACTICALLY NOTHING—when compared with the thousands who live here.

Yet there is a way of getting in touch with men and women you never saw—whose NAMES OCCUPATIONS, RESIDENCE, NEEDS you know absolutely nothing about.

It is through CITIZEN WANT ADS. A few lines under the different classifications on the want pages, such as “Help Wanted,” “For Sale,” “Lost and Found,” etc., reach just the people you want to reach. This is demonstrated day after day to all who use Citizen Want Ads.

Every day we hear of someone who used a CITIZEN WANT AD and received far more results than they had expected

"USE THEM—THE COST IS SMALL"

CITIZEN WANT ADS BRING RESULTS
